Contents

PART 1 — THE GUIDE

1 **About the Theory Test** — Everything to know before test day

2 **Road Signs** — Shape and colour tell you the meaning

3 **Road Markings** — What is painted on the road is law too

4 **Rules & Priority** — Who goes first?

5 **Speed & Stopping Distances** — Some of the most common test questions

6 **Driving in Bad Weather** — Rain, fog, snow and night

7 **Vehicle Safety** — Check before you drive

8 **Hazard Perception** — When exactly should you click?

9 **Motorways** — Special rules for high speeds

10 **Laws & First Aid** — Your responsibilities as a driver

PART 2 — QUESTION BANK

1 **Level 1 — Basics** — 100 questions

2 **Level 2 — Easy** — 100 questions

3 **Level 3 — Intermediate** — 100 questions

4 **Level 4 — Advanced** — 100 questions

5 **Level 5 — Expert** — 100 questions

PART 3

50 **Mock test with answers**

A–Z **Glossary**

1. Read the chapter

Each chapter is short and focused on what the test asks.

2. Practise by level

Questions go from easiest to hardest; the answer is highlighted green.

3. Test yourself

Take the mock in 57 minutes; the pass mark is 43.

4. The app has your back

Track progress and interactive hazard clips in the SO&DA app.

CHAPTER 1

About the Theory Test

Everything to know before test day

01

The British theory test is your first step to a full licence. It has two parts taken in the same session, and you must pass both.

Part	Content	Pass mark
Multiple choice	50 questions in 57 minutes	43 / 50
Hazard perception	14 clips, 15 hazards	44 / 75

- You need a provisional licence to book the test.
- Bring your provisional licence photocard on the day.
- Your pass certificate is valid for 2 years.
- You must pass theory before booking the practical test.

💡 **Exam tip**

Start with Level 1 in the app, and book your test once your mock average reaches 45 or more.

CHAPTER 2

Road Signs

Shape and colour tell you the meaning

02

In Britain you can tell the type of a sign from its shape and colour before reading it. Learn this rule and most signs become instant.

Stop

Stop — stop fully at the line and give way

Give Way

Give way to traffic on the major road

No Entry

No entry — one-way street

30 mph Limit

Maximum speed 30 mph

National Speed Limit

National limit: 60 single, 70 dual

Turn left (mandatory)

Turn left — mandatory

Warning sign

Warning of a hazard ahead

Information sign

Information and directions

Shape	Meaning	Example
Red circle	Prohibition	No entry, speed limit
Blue circle	Mandatory instruction	Turn left
Red triangle	Warning	Children, bend
Rectangle	Information & directions	Blue motorway, green primary, brown tourist

💡 **Exam tip**

STOP is the only octagonal sign, and Give Way is the only upside-down triangle.

CHAPTER 3

Road Markings

03

What is painted on the road is law too

Marking	Meaning
Double white lines, nearest solid	Do not cross or straddle
Long white line, short gaps	Hazard warning line
Single yellow line	Waiting restricted at signed times
Double yellow lines	No waiting at any time
Double red lines	No stopping at any time
Yellow box junction	Enter only if your exit is clear
Zigzag lines at a crossing	No parking or overtaking

⚠️ **Watch out**

A hatched area bordered by a solid line: do not enter except in an emergency.

CHAPTER 4

Rules & Priority

Who goes first?

MSM Mirror → Signal → Manoeuvre, before any change of speed or direction.

- At roundabouts: give way to traffic from your right.
- Unmarked crossroads: nobody has priority — proceed with care.
- Turning into a side road: give way to pedestrians waiting to cross (2022 update).
- Leave at least 1.5 m when overtaking a cyclist at up to 30 mph.
- Emergency vehicles: let them pass safely without breaking the law.

💡 **Exam tip**
Use the horn only to warn of danger — never in built-up areas between 11:30 pm and 7 am.

CHAPTER 5

Speed & Stopping Distances

Some of the most common test questions

Road	Cars	Towing
Built-up area	30 mph	30 mph
Single carriageway	60 mph	50 mph
Dual carriageway	70 mph	60 mph
Motorway	70 mph	60 mph

- Stopping distance = thinking distance + braking distance.
- Keep a two-second gap on dry roads.
- In rain: at least double.
- On ice: up to ten times longer.

> 💡 **Exam tip**
> Memorise the totals: 12 · 23 · 36 · 53 · 73 · 96 metres.

CHAPTER 6

06 Driving in Bad Weather

Rain, fog, snow and night

Condition	What to do
Rain	Double your gap; if you aquaplane, ease off the accelerator
Fog	Dipped headlights; fog lights below 100 m visibility
Snow & ice	Pull away in second gear; avoid harsh movements
Night	Watch for pedestrians and cyclists; if dazzled, slow down or stop
Strong wind	Take care around cyclists and high-sided vehicles

> ⚠️ **Watch out**
> After driving through water, test your brakes straight away.

CHAPTER 7

07

Vehicle Safety

Check before you drive

- Minimum legal tyre tread: 1.6 mm.
- Check tyre pressures when the tyres are cold.
- First MOT when the car is 3 years old.
- A red warning light means stop safely and check.
- An unused roof rack increases fuel consumption.

ABS Helps you keep steering control under harsh braking.

> 💡 **Exam tip**
> Smooth driving without harsh braking or acceleration saves fuel and cuts emissions.

CHAPTER 8

08

Hazard Perception

When exactly should you click?

A developing hazard is anything that makes you change speed or direction. Click when it starts to develop — not at everything you see.

The hazard window is split into five bands: the earlier you click after the hazard starts to develop, the higher your score.

- A ball in the road? Expect a child behind it.
- A stopped bus? Expect pedestrians stepping out.
- Reversing lights on? The car may move backwards.
- A white cane? The person is blind — stop and give them time.

> ⚠️ **Watch out**
> Repeated or patterned clicking scores zero for the whole clip.

CHAPTER 9

Motorways

Special rules for high speeds

09

- Drive in the left lane; use the others only to overtake.
- The hard shoulder is for emergencies only.
- A red X above a lane means the lane is closed.
- A speed limit in a red ring on a smart motorway is mandatory.

Stud colour	Where
Red	Left edge
Amber	Next to the central reservation
Green	Slip roads
White	Between lanes

💡 **Exam tip**

Broken down with no hard shoulder or emergency area? Hazard lights on, stay belted in and call 999.

CHAPTER 10

Laws & First Aid

Your responsibilities as a driver

10

Topic	Rule
Child under 14 seat belt	The driver is responsible
Child seat	Until 12 years or 135 cm tall
Insurance	Third party as a minimum
Hand-held phone	Illegal except to call 999/112
Alcohol (England/Scotland)	80 mg / 50 mg per 100 ml blood
6 points within 2 years of passing	Licence revoked

- At an incident: warn traffic and switch off engines first.

- Only remove a motorcyclist's helmet if essential.
- Adult CPR: compressions 5–6 cm deep at 100–120 per minute.
- Burns: cool with cold water for at least 10 minutes.

QUESTION BANK

Level 1 — Basics

100 questions · correct answer highlighted green with a short explanation

1 **What is the national speed limit for cars on a single carriageway?**

A 70 mph
B 50 mph
C 30 mph
D 60 mph

✓ The limit is 60 mph for cars on a single carriageway.

2 **What is the maximum speed for a car on a motorway?**

A 70 mph
B 80 mph
C 50 mph
D 60 mph

✓ 70 mph unless signs show otherwise.

3 **What is the speed limit in a built-up area with street lights, unless signs say otherwise?**

A 30 mph
B 20 mph
C 50 mph
D 40 mph

✓ The default limit is 30 mph in areas with street lights.

4 **Which speed limit usually applies outside schools?**

A 20 mph
B 70 mph
C 60 mph
D 50 mph

✓ 20 mph.

5 **What shape are warning signs?**

A Circle
B Octagon
C Triangle
D Square

✓ A triangle with a red border.

6 **What does a blue circular sign usually mean?**

A A mandatory instruction
B A prohibition
C A warning
D Information only

✓ A mandatory instruction.

7 What does a red circular sign with a white bar mean?

A Give way
B No entry
C Stop
D Roundabout

√ No entry.

8 The octagonal STOP sign means you must...

A Beep
B Flash
C Stop and give way
D Slow down only

√ Stop completely and give way.

9 What does the inverted triangle 'Give Way' sign mean?

A Road works
B Let other traffic go first
C Stop always
D No entry

√ Give way.

10 A white circle with a black diagonal stripe means...

A No parking
B Stop
C End of road
D National speed limit applies

√ The national speed limit applies.

11 What is the national speed limit for cars on a motorway?

A 80 mph
B 60 mph
C 50 mph
D 70 mph

√ The speed limit for cars on a motorway is 70 mph.

12 True or false: The speed limit for cars on a motorway is 70 mph.

A True
B False

√ The speed limit for cars on a motorway is 70 mph.

13 What is the usual speed limit in a built-up area with street lights?

A 40 mph
B 50 mph
C 20 mph
D 30 mph

√ In a built-up area with street lights the limit is usually 30 mph.

14 True or false: In a built-up area with street lights the limit is usually 30 mph.

A True
B False

√ In a built-up area with street lights the limit is usually 30 mph.

15 True or false: In a built-up area with street lights the limit is usually 40 mph.

A True

B False

√ In a built-up area with street lights the limit is usually 30 mph.

16 True or false: On a single carriageway the national limit for cars is 60 mph.

A True

B False

√ On a single carriageway the national limit for cars is 60 mph.

17 True or false: A car towing a trailer on a single carriageway is limited to 50 mph.

A True

B False

√ A car towing a trailer on a single carriageway is limited to 50 mph.

18 True or false: A white circle with a black diagonal stripe means national speed limit applies.

A True

B False

√ A white circle with a black diagonal stripe means national speed limit applies.

19 True or false: A white circle with a black diagonal stripe means no overtaking.

A True

B False

√ A white circle with a black diagonal stripe means national speed limit applies.

20 True or false: At 20 mph the typical overall stopping distance is 12 metres.

A True

B False

√ At 20 mph the typical overall stopping distance is 12 metres.

21 True or false: At 20 mph the typical overall stopping distance is 6 metres.

A True

B False

√ At 20 mph the typical overall stopping distance is 12 metres.

22 True or false: At 50 mph the typical overall stopping distance is 53 metres.

A True

B False

√ At 50 mph the typical overall stopping distance is 53 metres.

23 True or false: At 50 mph the typical overall stopping distance is 36 metres.

A True

B False

√ At 50 mph the typical overall stopping distance is 53 metres.

24 True or false: At 60 mph the typical overall stopping distance is 73 metres.

A True

B False

√ At 60 mph the typical overall stopping distance is 73 metres.

25 True or false: At 30 mph the typical thinking distance is 9 metres.

- **A True**
- B False

✓ At 30 mph the typical thinking distance is 9 metres.

26 What is the minimum gap you should keep behind the vehicle in front on a dry road?

- A five-second
- B one-second
- **C two-second**
- D half-second

✓ On a dry road you should keep at least a two-second gap.

27 True or false: On a dry road you should keep at least a two-second gap.

- **A True**
- B False

✓ On a dry road you should keep at least a two-second gap.

28 True or false: On a dry road you should keep at least a one-second gap.

- A True
- **B False**

✓ On a dry road you should keep at least a two-second gap.

29 What shape are most warning signs?

- A circular
- **B triangular**
- C rectangular
- D octagonal

✓ Most warning signs are triangular.

30 True or false: Most warning signs are triangular.

- **A True**
- B False

✓ Most warning signs are triangular.

31 True or false: Most warning signs are circular.

- A True
- **B False**

✓ Most warning signs are triangular.

32 What do red circular signs usually give?

- A information
- **B orders (prohibitions)**
- C warnings
- D directions

✓ Red circular signs usually give orders (prohibitions).

33 True or false: Red circular signs usually give orders (prohibitions).

- **A True**
- B False

✓ Red circular signs usually give orders (prohibitions).

34 **True or false: Red circular signs usually give information.**

A True

B False

✓ Red circular signs usually give orders (prohibitions).

35 **What do blue circular signs usually give?**

A tourist information

B warnings

C positive (mandatory) instructions

D prohibitions

✓ Blue circular signs usually give positive (mandatory) instructions.

36 **True or false: Blue circular signs usually give warnings.**

A True

B False

✓ Blue circular signs usually give positive (mandatory) instructions.

37 **True or false: Direction signs on motorways are blue.**

A True

B False

✓ Direction signs on motorways are blue.

38 **True or false: Direction signs on motorways are green.**

A True

B False

✓ Direction signs on motorways are blue.

39 **True or false: Direction signs on primary routes are green.**

A True

B False

✓ Direction signs on primary routes are green.

40 **True or false: Signs for tourist attractions are brown.**

A True

B False

✓ Signs for tourist attractions are brown.

41 **Which sign is the only octagonal sign?**

A Keep Left

B STOP

C Give Way

D No Entry

✓ The only octagonal sign is STOP.

42 **True or false: The only octagonal sign is STOP.**

A True

B False

✓ The only octagonal sign is STOP.

43 **True or false: The only octagonal sign is Give Way.**

A True

B False

√ The only octagonal sign is STOP.

44 **True or false: A blue circle with a white bicycle means route for cycles only.**

A True

B False

√ A blue circle with a white bicycle means route for cycles only.

45 **What do double white lines where the line nearest you is solid mean?**

A you may overtake with care

B parking is allowed

C it is a bus lane

D you must not cross or straddle it

√ When the line nearest you is solid, it means you must not cross or straddle it.

46 **True or false: When the line nearest you is solid, it means you must not cross or straddle it.**

A True

B False

√ When the line nearest you is solid, it means you must not cross or straddle it.

47 **True or false: When the line nearest you is solid, it means you may overtake with care.**

A True

B False

√ When the line nearest you is solid, it means you must not cross or straddle it.

48 **True or false: A single yellow line means waiting is restricted at times shown on nearby signs.**

A True

B False

√ A single yellow line means waiting is restricted at times shown on nearby signs.

49 **True or false: Zigzag lines at a crossing mean bus stop.**

A True

B False

√ Zigzag lines at a crossing mean no parking or overtaking.

50 **True or false: At a yellow box junction, do not enter unless your exit is clear.**

A True

B False

√ At a yellow box junction, do not enter unless your exit is clear.

51 **True or false: A long white line with short gaps is a hazard warning line.**

A True

B False

√ A long white line with short gaps is a hazard warning line.

52 **At a roundabout, who should you normally give way to?**

A pedestrians only

B traffic from your right

C traffic from your left

D traffic behind you

✓ At a roundabout you should normally give way to traffic from your right.

53 **True or false: At a roundabout you should normally give way to traffic from your right.**

A True

B False

✓ At a roundabout you should normally give way to traffic from your right.

54 **True or false: At an unmarked crossroads nobody has priority.**

A True

B False

✓ At an unmarked crossroads nobody has priority.

55 **True or false: When turning into a side road you should give way to pedestrians waiting to cross it.**

A True

B False

✓ When turning into a side road you should give way to pedestrians waiting to cross it.

56 **True or false: When turning into a side road you should give way to pedestrians only on a zebra crossing.**

A True

B False

✓ When turning into a side road you should give way to pedestrians waiting to cross it.

57 **True or false: You should use Mirror–Signal–Manoeuvre before every change of speed or direction.**

A True

B False

✓ You should use Mirror–Signal–Manoeuvre before every change of speed or direction.

58 **True or false: You should use Mirror–Signal–Manoeuvre only on motorways.**

A True

B False

✓ You should use Mirror–Signal–Manoeuvre before every change of speed or direction.

59 **True or false: You should normally overtake on the right.**

A True

B False

✓ You should normally overtake on the right.

60 **True or false: You should normally overtake on the left.**

A True

B False

✓ You should normally overtake on the right.

61 **When should you use fog lights?**

A whenever it rains
B in bright sunshine
C at night in towns
D when visibility is below 100 metres

✓ Use fog lights when visibility is below 100 metres.

62 **True or false: Use fog lights when visibility is below 100 metres.**

A True
B False

✓ Use fog lights when visibility is below 100 metres.

63 **True or false: Use fog lights whenever it rains.**

A True
B False

✓ Use fog lights when visibility is below 100 metres.

64 **True or false: If your car aquaplanes you should ease off the accelerator.**

A True
B False

✓ If your car aquaplanes you should ease off the accelerator.

65 **True or false: When dazzled at night you should flash your lights.**

A True
B False

✓ When dazzled at night you should slow down or stop.

66 **What is the minimum legal tread depth for car tyres?**

A 3 mm
B 1.6 mm
C 1 mm
D 2.5 mm

✓ The minimum legal tread depth for car tyres is 1.6 mm.

67 **True or false: The minimum legal tread depth for car tyres is 1.6 mm.**

A True
B False

✓ The minimum legal tread depth for car tyres is 1.6 mm.

68 **True or false: The minimum legal tread depth for car tyres is 1 mm.**

A True
B False

✓ The minimum legal tread depth for car tyres is 1.6 mm.

69 **True or false: A car needs its first MOT when it is 3 years old.**

A True
B False

✓ A car needs its first MOT when it is 3 years old.

70 **True or false: Check tyre pressures when the tyres are cold.**

- **A True**
- B False

✓ Check tyre pressures when the tyres are cold.

71 **Who is responsible for a child under 14 wearing a seat belt?**

- **A the driver**
- B the child
- C the parent only
- D nobody

✓ For a child under 14 the person responsible is the driver.

72 **True or false: For a child under 14 the person responsible is the child.**

- A True
- **B False**

✓ For a child under 14 the person responsible is the driver.

73 **True or false: A child seat must be used until 12 years old or 135 cm tall.**

- **A True**
- B False

✓ A child seat must be used until 12 years old or 135 cm tall.

74 **True or false: The legal minimum insurance is third party.**

- **A True**
- B False

✓ The legal minimum insurance is third party.

75 **True or false: 6 penalty points within 2 years of passing means your licence is revoked.**

- **A True**
- B False

✓ 6 penalty points within 2 years of passing means your licence is revoked.

76 **True or false: 6 penalty points within 2 years of passing means a warning letter.**

- A True
- **B False**

✓ 6 penalty points within 2 years of passing means your licence is revoked.

77 **When may you use a hand-held mobile phone while driving?**

- **A only to call 999/112 in an emergency when unsafe to stop**
- B when stopped at traffic lights
- C on the motorway
- D on quiet roads

✓ You may use a hand-held phone while driving only to call 999/112 in an emergency when unsafe to stop.

78 **True or false: You may use a hand-held phone while driving only to call 999/112 in an emergency when unsafe to stop.**

- **A True**
- B False

✓ You may use a hand-held phone while driving only to call 999/112 in an emergency when unsafe to stop.

79 **True or false: You may use a hand-held phone while driving when stopped at traffic lights.**

A True

B False

✓ You may use a hand-held phone while driving only to call 999/112 in an emergency when unsafe to stop.

80 **True or false: If tired on a motorway you should leave at the next exit and rest.**

A True

B False

✓ If tired on a motorway you should leave at the next exit and rest.

81 **True or false: A head restraint is there to reduce neck injuries in a collision.**

A True

B False

✓ A head restraint is there to reduce neck injuries in a collision.

82 **What is the hard shoulder for?**

A resting

B phone calls

C overtaking

D emergencies only

✓ The hard shoulder is for emergencies only.

83 **True or false: The hard shoulder is for emergencies only.**

A True

B False

✓ The hard shoulder is for emergencies only.

84 **True or false: The hard shoulder is for resting.**

A True

B False

✓ The hard shoulder is for emergencies only.

85 **True or false: A red X above a lane means the lane is closed — do not use it.**

A True

B False

✓ A red X above a lane means the lane is closed — do not use it.

86 **True or false: On a motorway you should normally drive in the left-hand lane.**

A True

B False

✓ On a motorway you should normally drive in the left-hand lane.

87 **True or false: On a motorway you should normally drive in the middle lane.**

A True

B False

✓ On a motorway you should normally drive in the left-hand lane.

88 True or false: Studs on the left edge of a motorway are red.

- **A True**
- B False

✓ Studs on the left edge of a motorway are red.

89 What is the pass mark for the hazard perception test?

- **A 44 out of 75**
- B 33 out of 50
- C 43 out of 50
- D 50 out of 75

✓ The hazard perception pass mark is 44 out of 75.

90 True or false: The hazard perception pass mark is 44 out of 75.

- **A True**
- B False

✓ The hazard perception pass mark is 44 out of 75.

91 True or false: The hazard perception pass mark is 43 out of 50.

- A True
- **B False**

✓ The hazard perception pass mark is 44 out of 75.

92 True or false: The hazard perception test has 14 clips.

- **A True**
- B False

✓ The hazard perception test has 14 clips.

93 True or false: When a ball rolls into the road you should expect a child to run out after it.

- **A True**
- B False

✓ When a ball rolls into the road you should expect a child to run out after it.

94 True or false: At an incident the first thing to do is warn other traffic and switch off engines.

- **A True**
- B False

✓ At an incident the first thing to do is warn other traffic and switch off engines.

95 True or false: At an incident the first thing to do is move the casualties.

- A True
- **B False**

✓ At an incident the first thing to do is warn other traffic and switch off engines.

96 True or false: You should remove an injured motorcyclist's helmet only if essential, e.g. they are not breathing.

- **A True**
- B False

✓ You should remove an injured motorcyclist's helmet only if essential, e.g. they are not breathing.

97 **True or false: A white stick with red bands means the person is deaf and blind.**

A True | B False

✓ A white stick with red bands means the person is deaf and blind.

98 **True or false: A white stick with red bands means the person is elderly only.**

A True | **B False**

✓ A white stick with red bands means the person is deaf and blind.

99 **True or false: Give motorcyclists extra room because they are harder to see and may swerve.**

A True | B False

✓ Give motorcyclists extra room because they are harder to see and may swerve.

100 **True or false: When a red warning light comes on you should stop safely and check.**

A True | B False

✓ When a red warning light comes on you should stop safely and check.

QUESTION BANK

Level 2 — Easy

100 questions · correct answer highlighted green with a short explanation

101 **What do double yellow lines at the edge of the road mean?**

A Loading only
B No stopping at all
C No waiting at any time unless signs show otherwise
D Waiting allowed at night

✓ No waiting at any time unless signs show otherwise.

102 **A single yellow line along the edge of the road means...**

A No stopping for buses
B Restrictions apply at times shown on nearby signs
C Parking is free
D No waiting at any time

✓ Restrictions apply at times shown on nearby signs.

103 **When may you wait in a yellow box junction?**

A When queuing behind another vehicle
B When traffic lights are green
C Never
D When turning right and only oncoming traffic stops you

✓ When turning right and only oncoming traffic stops you.

104 **What do zigzag lines at a zebra crossing mean?**

A Parking allowed
B Cycle lane
C No parking and no overtaking
D Slow down only

✓ No parking and no overtaking in the zigzag area.

105 **At a pelican crossing, the amber light is flashing. You should...**

A Give way to pedestrians on the crossing and go if clear
B Speed up
C Sound your horn
D Stop and wait

✓ Give way to pedestrians on the crossing, then go if clear.

106 **At a roundabout, you should give way to traffic approaching from...**

A Your left
B Your right
C Behind
D Ahead

✓ Traffic approaching from the right.

107 When leaving a roundabout you should signal...

A Right
B No signal
C Left
D Hazard lights

✓ Signal left as you leave.

108 An ambulance with flashing blue lights is behind you. You should...

A Jump the red light
B Speed up
C Pull over safely and let it pass
D Brake hard in the lane

✓ Pull over somewhere safe and legal to let it pass.

109 When overtaking a cyclist at up to 30 mph, you should leave at least...

A 3 metres
B 1 metre
C 1.5 metres
D 0.5 metres

✓ At least 1.5 metres.

110 You must not park within how many metres of a junction?

A 5 metres
B 15 metres
C 10 metres
D 20 metres

✓ 10 metres.

111 You are turning into a side road. Pedestrians are waiting to cross it. You should...

A Give way to them
B Sound your horn
C Flash your lights
D Drive through quickly

✓ Give way to pedestrians.

112 What does MSM stand for?

A Mirror, Speed, Move
B Mirrors, Seat, Mirrors
C Move, Stop, Move
D Mirror, Signal, Manoeuvre

✓ Mirror, Signal, Manoeuvre.

113 On a narrow road with a parked car on your side, you should...

A Force through
B Flash lights
C Reverse fast
D Give way to oncoming traffic

✓ Give way to oncoming traffic.

114 **Which of these statements is correct?**

A The speed limit for cars on a motorway is 50 mph.

B The speed limit for cars on a motorway is 80 mph.

C The speed limit for cars on a motorway is 70 mph.

D The speed limit for cars on a motorway is 60 mph.

✓ The speed limit for cars on a motorway is 70 mph.

115 **Which of these statements is correct?**

A In a built-up area with street lights the limit is usually 40 mph.

B In a built-up area with street lights the limit is usually 20 mph.

C In a built-up area with street lights the limit is usually 30 mph.

D In a built-up area with street lights the limit is usually 50 mph.

✓ In a built-up area with street lights the limit is usually 30 mph.

116 **What is the national speed limit for cars on a single carriageway?**

A 70 mph

B 50 mph

C 40 mph

D 60 mph

✓ On a single carriageway the national limit for cars is 60 mph.

117 **True or false: On a single carriageway the national limit for cars is 70 mph.**

A True

B False

✓ On a single carriageway the national limit for cars is 60 mph.

118 **What is the national speed limit for cars on a dual carriageway?**

A 50 mph

B 60 mph

C 70 mph

D 80 mph

✓ On a dual carriageway the national limit for cars is 70 mph.

119 **True or false: On a dual carriageway the national limit for cars is 60 mph.**

A True

B False

✓ On a dual carriageway the national limit for cars is 70 mph.

120 **True or false: A car towing a caravan on a motorway is limited to 60 mph.**

A True

B False

✓ A car towing a caravan on a motorway is limited to 60 mph.

121 **True or false: A car towing a trailer on a single carriageway is limited to 60 mph.**

A True

B False

✓ A car towing a trailer on a single carriageway is limited to 50 mph.

122 What does a white circular sign with a black diagonal stripe mean?

A no stopping
B no overtaking
C national speed limit applies
D end of motorway

✓ A white circle with a black diagonal stripe means national speed limit applies.

123 What is the typical overall stopping distance at 20 mph?

A 6 metres
B 18 metres
C 23 metres
D 12 metres

✓ At 20 mph the typical overall stopping distance is 12 metres.

124 What is the typical overall stopping distance at 50 mph?

A 45 metres
B 73 metres
C 36 metres
D 53 metres

✓ At 50 mph the typical overall stopping distance is 53 metres.

125 What is the typical overall stopping distance at 60 mph?

A 73 metres
B 96 metres
C 60 metres
D 53 metres

✓ At 60 mph the typical overall stopping distance is 73 metres.

126 True or false: At 60 mph the typical overall stopping distance is 53 metres.

A True
B False

✓ At 60 mph the typical overall stopping distance is 73 metres.

127 True or false: At 30 mph the typical thinking distance is 14 metres.

A True
B False

✓ At 30 mph the typical thinking distance is 9 metres.

128 True or false: At 70 mph the typical braking distance is 75 metres.

A True
B False

✓ At 70 mph the typical braking distance is 75 metres.

129 Which of these statements is correct?

A On a dry road you should keep at least a two-second gap.
B On a dry road you should keep at least a one-second gap.
C On a dry road you should keep at least a half-second gap.
D On a dry road you should keep at least a five-second gap.

✓ On a dry road you should keep at least a two-second gap.

130 **True or false: In wet weather stopping distances are at least double those on dry roads.**

- **A True**
- B False

✓ In wet weather stopping distances are at least double those on dry roads.

131 **Which of these statements is correct?**

- **A Most warning signs are triangular.**
- B Most warning signs are rectangular.
- C Most warning signs are circular.
- D Most warning signs are octagonal.

✓ Most warning signs are triangular.

132 **Which of these statements is correct?**

- A Red circular signs usually give warnings.
- B Red circular signs usually give information.
- C Red circular signs usually give directions.
- **D Red circular signs usually give orders (prohibitions).**

✓ Red circular signs usually give orders (prohibitions).

133 **Which of these statements is correct?**

- A Blue circular signs usually give prohibitions.
- B Blue circular signs usually give warnings.
- **C Blue circular signs usually give positive (mandatory) instructions.**
- D Blue circular signs usually give tourist information.

✓ Blue circular signs usually give positive (mandatory) instructions.

134 **What colour are direction signs on motorways?**

- A brown
- B green
- C white
- **D blue**

✓ Direction signs on motorways are blue.

135 **What colour are direction signs on primary routes?**

- A blue
- **B green**
- C brown
- D white

✓ Direction signs on primary routes are green.

136 **What colour are signs for tourist attractions?**

- A yellow
- B green
- C blue
- **D brown**

✓ Signs for tourist attractions are brown.

137 **True or false: Signs for tourist attractions are green.**

- A True
- **B False**

✓ Signs for tourist attractions are brown.

138 **Which of these statements is correct?**

A The only octagonal sign is Give Way.

B The only octagonal sign is No Entry.

C The only octagonal sign is Keep Left.

D The only octagonal sign is STOP.

✓ The only octagonal sign is STOP.

139 **True or false: A red circle showing a black car beside a red car means no overtaking.**

A True

B False

✓ A red circle showing a black car beside a red car means no overtaking.

140 **Which of these statements is correct?**

A When the line nearest you is solid, it means it is a bus lane.

B When the line nearest you is solid, it means parking is allowed.

C When the line nearest you is solid, it means you must not cross or straddle it.

D When the line nearest you is solid, it means you may overtake with care.

✓ When the line nearest you is solid, it means you must not cross or straddle it.

141 **What does a single yellow line along the edge of the road mean?**

A no waiting at any time

B loading only

C waiting is restricted at times shown on nearby signs

D parking is free

✓ A single yellow line means waiting is restricted at times shown on nearby signs.

142 **True or false: A single yellow line means no waiting at any time.**

A True

B False

✓ A single yellow line means waiting is restricted at times shown on nearby signs.

143 **What do zigzag lines at a pedestrian crossing mean?**

A cycle lane

B no parking or overtaking

C slow down only

D bus stop

✓ Zigzag lines at a crossing mean no parking or overtaking.

144 **True or false: Double red lines mean no stopping at any time.**

A True

B False

✓ Double red lines mean no stopping at any time.

145 **What does a long white line with short gaps in the middle of the road warn of?**

A a give way line

B a cycle lane

C a hazard warning line

D a lane line

✓ A long white line with short gaps is a hazard warning line.

146 **True or false: A long white line with short gaps is a lane line.**

A True

B False

✓ A long white line with short gaps is a hazard warning line.

147 **Which of these statements is correct?**

A At a roundabout you should normally give way to traffic behind you.

B At a roundabout you should normally give way to pedestrians only.

C At a roundabout you should normally give way to traffic from your left.

D At a roundabout you should normally give way to traffic from your right.

✓ At a roundabout you should normally give way to traffic from your right.

148 **Who has priority at an unmarked crossroads?**

A the larger vehicle

B the faster vehicle

C traffic from the left

D nobody has priority

✓ At an unmarked crossroads nobody has priority.

149 **True or false: At an unmarked crossroads the larger vehicle.**

A True

B False

✓ At an unmarked crossroads nobody has priority.

150 **Under the 2022 Highway Code, when turning into a side road you should give way to pedestrians who are...**

A waiting to cross it

B only if they wave

C only on a zebra crossing

D never

✓ When turning into a side road you should give way to pedestrians waiting to cross it.

151 **True or false: A flashing amber at a pelican crossing means give way to pedestrians on the crossing.**

A True

B False

✓ A flashing amber at a pelican crossing means give way to pedestrians on the crossing.

152 **When should you use the MSM routine?**

A only when overtaking

B only at night

C before every change of speed or direction

D only on motorways

✓ You should use Mirror–Signal–Manoeuvre before every change of speed or direction.

153 **True or false: In a built-up area you may sound your horn only to warn of danger, not 11:30 pm–7 am.**

A True

B False

✓ In a built-up area you may sound your horn only to warn of danger, not 11:30 pm–7 am.

154 True or false: You must not park within 10 metres of a junction.

A True | B False

✓ You must not park within 10 metres of a junction.

155 True or false: You must not park within 5 metres of a junction.

A True | **B False**

✓ You must not park within 10 metres of a junction.

156 On which side should you normally overtake?

A either side | B the hard shoulder

C the left | **D the right**

✓ You should normally overtake on the right.

157 True or false: You may overtake on the left when traffic in the right lane is moving more slowly in queues.

A True | B False

✓ You may overtake on the left when traffic in the right lane is moving more slowly in queues.

158 Which of these statements is correct?

A Use fog lights in bright sunshine. | **B Use fog lights when visibility is below 100 metres.**

C Use fog lights whenever it rains. | D Use fog lights at night in towns.

✓ Use fog lights when visibility is below 100 metres.

159 What should you do if your car begins to aquaplane?

A accelerate | B brake hard

C ease off the accelerator | D steer sharply

✓ If your car aquaplanes you should ease off the accelerator.

160 True or false: If your car aquaplanes you should brake hard.

A True | **B False**

✓ If your car aquaplanes you should ease off the accelerator.

161 True or false: On snow or ice, pull away in second gear.

A True | B False

✓ On snow or ice, pull away in second gear.

162 True or false: After driving through a flood you should test your brakes.

A True | B False

✓ After driving through a flood you should test your brakes.

163 **When dazzled by headlights at night, you should...**

A close your eyes
B speed up
C flash your lights
D slow down or stop

✓ When dazzled at night you should slow down or stop.

164 **Which of these statements is correct?**

A The minimum legal tread depth for car tyres is 1 mm.
B The minimum legal tread depth for car tyres is 3 mm.
C The minimum legal tread depth for car tyres is 1.6 mm.
D The minimum legal tread depth for car tyres is 2.5 mm.

✓ The minimum legal tread depth for car tyres is 1.6 mm.

165 **When does a car need its first MOT?**

A 10 years old
B 5 years old
C 1 year old
D 3 years old

✓ A car needs its first MOT when it is 3 years old.

166 **True or false: A car needs its first MOT when it is 1 year old.**

A True
B False

✓ A car needs its first MOT when it is 3 years old.

167 **When should you check tyre pressures?**

A only at the MOT
B when the tyres are cold
C when they are hot
D after a long drive

✓ Check tyre pressures when the tyres are cold.

168 **True or false: Check tyre pressures after a long drive.**

A True
B False

✓ Check tyre pressures when the tyres are cold.

169 **True or false: ABS helps you keep steering control under harsh braking.**

A True
B False

✓ ABS helps you keep steering control under harsh braking.

170 **True or false: A main cause of high fuel consumption is harsh braking and accelerating.**

A True
B False

✓ A main cause of high fuel consumption is harsh braking and accelerating.

171 **True or false: A main cause of high fuel consumption is using the radio.**

A True

B False

✓ A main cause of high fuel consumption is harsh braking and accelerating.

172 **Which of these statements is correct?**

A For a child under 14 the person responsible is the parent only.

B For a child under 14 the person responsible is the child.

C For a child under 14 the person responsible is nobody.

D For a child under 14 the person responsible is the driver.

✓ For a child under 14 the person responsible is the driver.

173 **A child must use a child seat until they are 12 years old or how tall?**

A 135 cm

B 100 cm

C 150 cm

D 120 cm

✓ A child seat must be used until 12 years old or 135 cm tall.

174 **What is the minimum insurance cover you must have by law?**

A third party

B fully comprehensive

C no insurance

D fire and theft only

✓ The legal minimum insurance is third party.

175 **True or false: The legal minimum insurance is fully comprehensive.**

A True

B False

✓ The legal minimum insurance is third party.

176 **If you get 6 or more penalty points within 2 years of passing, what happens?**

A a warning letter

B your licence is revoked

C a small fine

D nothing

✓ 6 penalty points within 2 years of passing means your licence is revoked.

177 **True or false: In Scotland the legal limit is 50 mg per 100 ml of blood.**

A True

B False

✓ In Scotland the legal limit is 50 mg per 100 ml of blood.

178 **True or false: In Scotland the legal limit is 80 mg per 100 ml of blood.**

A True

B False

✓ In Scotland the legal limit is 50 mg per 100 ml of blood.

179 **Which of these statements is correct?**

- **A You may use a hand-held phone while driving only to call 999/112 in an emergency when unsafe to stop.**
- B You may use a hand-held phone while driving on the motorway.
- C You may use a hand-held phone while driving when stopped at traffic lights.
- D You may use a hand-held phone while driving on quiet roads.

✓ You may use a hand-held phone while driving only to call 999/112 in an emergency when unsafe to stop.

180 **How often should you take a break on a long journey?**

- **A at least every 2 hours**
- B every 4 hours
- C never
- D only when hungry

✓ On a long journey take a break at least every 2 hours.

181 **True or false: On a long journey take a break every 4 hours.**

- A True
- **B False**

✓ On a long journey take a break at least every 2 hours.

182 **Which of these statements is correct?**

- A The hard shoulder is for overtaking.
- B The hard shoulder is for phone calls.
- C The hard shoulder is for resting.
- **D The hard shoulder is for emergencies only.**

✓ The hard shoulder is for emergencies only.

183 **What does a red X above a motorway lane mean?**

- **A the lane is closed — do not use it**
- B bus lane
- C slow down
- D overtaking lane

✓ A red X above a lane means the lane is closed — do not use it.

184 **True or false: A red X above a lane means bus lane.**

- A True
- **B False**

✓ A red X above a lane means the lane is closed — do not use it.

185 **Which lane should you normally use on a three-lane motorway?**

- A the right-hand lane
- B the middle lane
- **C the left-hand lane**
- D any lane

✓ On a motorway you should normally drive in the left-hand lane.

186 **True or false: Studs between the motorway and slip roads are green.**

- **A True**
- B False

✓ Studs between the motorway and slip roads are green.

187 **True or false: Studs between the motorway and slip roads are red.**

A True

B False

✓ Studs between the motorway and slip roads are green.

188 **True or false: Studs on the left edge of a motorway are green.**

A True

B False

✓ Studs on the left edge of a motorway are red.

189 **True or false: Studs next to the central reservation are amber.**

A True

B False

✓ Studs next to the central reservation are amber.

190 **True or false: Motorcycles under 50 cc are not allowed on a motorway.**

A True

B False

✓ Motorcycles under 50 cc are not allowed on a motorway.

191 **Which of these statements is correct?**

A The hazard perception pass mark is 43 out of 50.

B The hazard perception pass mark is 44 out of 75.

C The hazard perception pass mark is 50 out of 75.

D The hazard perception pass mark is 33 out of 50.

✓ The hazard perception pass mark is 44 out of 75.

192 **How many clips are in the hazard perception test?**

A 20 clips

B 10 clips

C 14 clips

D 15 clips

✓ The hazard perception test has 14 clips.

193 **True or false: The hazard perception test has 10 clips.**

A True

B False

✓ The hazard perception test has 14 clips.

194 **True or false: A developing hazard is something that makes you change speed or direction.**

A True

B False

✓ A developing hazard is something that makes you change speed or direction.

195 **At an incident, what should you do first?**

A warn other traffic and switch off engines

B leave the scene

C move the casualties

D remove helmets

✓ At an incident the first thing to do is warn other traffic and switch off engines.

196 What should you do when you see a pedestrian with a white stick and red bands?

A a road worker

B deaf and blind

C a learner

D elderly only

✓ A white stick with red bands means the person is deaf and blind.

197 True or false: When a learner stalls ahead you should be patient and wait.

A True

B False

✓ When a learner stalls ahead you should be patient and wait.

198 True or false: Eco-safe driving achieves lower fuel use and fewer emissions.

A True

B False

✓ Eco-safe driving achieves lower fuel use and fewer emissions.

199 A red warning light comes on while driving. What should you do?

A stop safely and check

B drive faster to a garage

C ignore it

D turn up the radio

✓ When a red warning light comes on you should stop safely and check.

200 True or false: When a red warning light comes on you should ignore it.

A True

B False

✓ When a red warning light comes on you should stop safely and check.

QUESTION BANK

Level 3 — Intermediate

100 questions · correct answer highlighted green with a short explanation

201 **What is the typical overall stopping distance at 30 mph?**

A 53 metres
B 36 metres
C 12 metres
D 23 metres

✓ 23 metres (9 m thinking + 14 m braking).

202 **What is the typical overall stopping distance at 70 mph?**

A 96 metres
B 53 metres
C 73 metres
D 120 metres

✓ 96 metres (21 m thinking + 75 m braking).

203 **What is the typical overall stopping distance at 50 mph?**

A 73 metres
B 96 metres
C 36 metres
D 53 metres

✓ 53 metres.

204 **What does the two-second rule help you to do?**

A Keep a safe gap from the vehicle in front
B Check your tyre grip
C Judge when to overtake
D Check your speed

✓ It helps you keep a safe gap behind the vehicle in front.

205 **On wet roads, the gap you should leave from the vehicle in front is at least...**

A One second
B Two seconds
C Four seconds
D Three seconds

✓ At least double the normal gap (four seconds).

206 **On icy roads, stopping distances can increase by up to...**

A Four times
B Six times
C Two times
D Ten times

✓ They can increase up to ten times.

207 **What is 'thinking distance'?**

- **A Distance travelled before you react and begin braking**
- B The distance you can see
- C The gap to the vehicle ahead
- D Distance travelled while braking

✓ The distance travelled before you react and start braking.

208 **Mark TWO answers. When should you NOT overtake?**

- A On a dual carriageway
- **B Approaching a bend**
- **C Near the brow of a hill**
- D On a wide straight road with a clear view

✓ Near a bend and near the brow of a hill, because you can't see far enough.

209 **A car needs its first MOT test when it is...**

- A 5 years old
- **B 3 years old**
- C 7 years old
- D 1 year old

✓ After three years.

210 **What is the legal minimum tread depth for car tyres?**

- **A 1.6 mm**
- B 1.0 mm
- C 2.0 mm
- D 3.0 mm

✓ 1.6 mm across the central three-quarters of the tyre.

211 **When should you check tyre pressures?**

- A Only before MOT
- **B When tyres are cold**
- C After motorway driving
- D When tyres are hot

✓ When the tyres are cold.

212 **A red warning light comes on while driving. You should...**

- A Ignore it
- B Drive faster
- **C Stop safely and investigate**
- D Wait until next service

✓ Stop safely and check.

213 **In fog, when should you use fog lights?**

- A Never
- **B When visibility is seriously reduced, usually below 100 m**
- C Always
- D Only at night

✓ When visibility is seriously reduced (under 100 m); switch them off when it improves.

214 **If your car starts to aquaplane, you should...**

A Ease off the accelerator | B Speed up

C Brake hard | D Steer sharply

✓ Ease off the accelerator gently.

215 **You are dazzled by bright headlights at night. You should...**

A Slow down and stop if needed | B Speed up

C Close your eyes | D Flash back

✓ Slow down and stop if needed.

216 **In heavy rain you should use...**

A Fog lights only | B No lights

C Dipped headlights | D Full beam

✓ Dipped headlights.

217 **How often should you take a break on a long journey?**

A Every 4 hours | **B At least every 2 hours**

C Never | D Every 6 hours

✓ At least every two hours.

218 **Before driving after taking medicine, you should...**

A Check with your doctor or pharmacist | B Drink coffee

C Open the window | D Drive slowly

✓ Ask your doctor or pharmacist.

219 **When may you use your horn in a built-up area?**

A Between 11:30 pm and 7 am only if another vehicle is a danger | B To thank others

C To hurry others | D Anytime

✓ Only to warn of danger; not between 11:30 pm and 7 am in built-up areas.

220 **At a level crossing the amber light comes on. You should...**

A Stop unless too close to stop safely | B Cross

C Speed up | D Reverse

✓ Stop unless you are too close to stop safely.

221 **True or false: You can use the hard shoulder for a rest.**

A True | **B False**

✓ False: emergencies only.

222 **A red X above your lane on a motorway means...**

A Bus lane
B Free lane
C Lane is closed - do not continue
D Slow down

✓ The lane is closed — do not continue in it.

223 **If you break down on a motorway, you should...**

A Fix it on the lane
B Cross lanes
C Get out by the left-hand door and wait behind the barrier
D Stay in the car

✓ Leave by the left-hand door and wait behind the barrier.

224 **Learner drivers may use motorways...**

A Never
B Only at night
C Alone
D With an approved instructor in a dual-control car

✓ Only with an approved instructor in a dual-control car.

225 **When joining a motorway from a slip road, you should...**

A Stop at the end
B Cut in
C Use hard shoulder
D Match speed and give way to traffic

✓ Match your speed and give way to traffic.

226 **Before a long motorway journey, you should check...**

A Seat
B Radio
C Mats
D Fuel, oil, water and tyres

✓ Fuel, oil, water and tyres.

227 **What is the typical overall stopping distance at 40 mph?**

A 23 metres
B 36 metres
C 73 metres
D 53 metres

✓ 36 metres.

228 **What is the speed limit for a car towing a caravan on a motorway?**

A 60 mph
B 50 mph
C 70 mph
D 40 mph

✓ A car towing a caravan on a motorway is limited to 60 mph.

229 **True or false: A car towing a caravan on a motorway is limited to 70 mph.**

A True
B False

✓ A car towing a caravan on a motorway is limited to 60 mph.

230 **What is the speed limit for a car towing a trailer on a single carriageway?**

A 40 mph
B 60 mph
C 70 mph
D 50 mph

✓ A car towing a trailer on a single carriageway is limited to 50 mph.

231 **Which of these statements is correct?**

A A white circle with a black diagonal stripe means end of motorway.
B A white circle with a black diagonal stripe means no stopping.
C A white circle with a black diagonal stripe means no overtaking.
D A white circle with a black diagonal stripe means national speed limit applies.

✓ A white circle with a black diagonal stripe means national speed limit applies.

232 **True or false: Goods vehicles over 7.5 tonnes on a dual carriageway in England are limited to 60 mph.**

A True
B False

✓ Goods vehicles over 7.5 tonnes on a dual carriageway in England are limited to 60 mph.

233 **What is the typical thinking distance at 30 mph?**

A 14 metres
B 12 metres
C 6 metres
D 9 metres

✓ At 30 mph the typical thinking distance is 9 metres.

234 **What is the typical braking distance at 70 mph?**

A 96 metres
B 75 metres
C 55 metres
D 38 metres

✓ At 70 mph the typical braking distance is 75 metres.

235 **True or false: At 70 mph the typical braking distance is 55 metres.**

A True
B False

✓ At 70 mph the typical braking distance is 75 metres.

236 **What is the typical thinking distance at 70 mph?**

A 15 metres
B 30 metres
C 18 metres
D 21 metres

✓ At 70 mph the typical thinking distance is 21 metres.

237 **True or false: At 70 mph the typical thinking distance is 18 metres.**

A True
B False

✓ At 70 mph the typical thinking distance is 21 metres.

238 **In wet weather, stopping distances will be at least how much longer than on dry roads?**

A half
B double
C ten times
D the same as

✓ In wet weather stopping distances are at least double those on dry roads.

239 **True or false: In wet weather stopping distances are at least the same as those on dry roads.**

A True
B False

✓ In wet weather stopping distances are at least double those on dry roads.

240 **True or false: On icy roads braking distances can be up to ten times longer.**

A True
B False

✓ On icy roads braking distances can be up to ten times longer.

241 **True or false: Thinking distance is mainly increased by tiredness, alcohol or distraction.**

A True
B False

✓ Thinking distance is mainly increased by tiredness, alcohol or distraction.

242 **What does a sign with a red circle, white background and a black car beside a red car mean?**

A car park
B two-way traffic
C no parking
D no overtaking

✓ A red circle showing a black car beside a red car means no overtaking.

243 **True or false: A red circle showing a black car beside a red car means two-way traffic.**

A True
B False

✓ A red circle showing a black car beside a red car means no overtaking.

244 **True or false: A blue circle with a white bicycle means no cycling.**

A True
B False

✓ A blue circle with a white bicycle means route for cycles only.

245 **True or false: A "20 ZONE" sign means a 20 mph limit applies throughout the zone.**

A True
B False

✓ A "20 ZONE" sign means a 20 mph limit applies throughout the zone.

246 **True or false: A blue rectangle with a white P means parking place.**

A True
B False

✓ A blue rectangle with a white P means parking place.

247 **What does a yellow box junction mean?**

A you may wait inside

B parking is allowed

C do not enter unless your exit is clear

D give way to buses only

✓ At a yellow box junction, do not enter unless your exit is clear.

248 **True or false: At a yellow box junction, you may wait inside.**

A True

B False

✓ At a yellow box junction, do not enter unless your exit is clear.

249 **What do red route double red lines mean?**

A no stopping at any time

B bus lane

C parking for permit holders

D stopping allowed at night

✓ Double red lines mean no stopping at any time.

250 **True or false: Double red lines mean parking for permit holders.**

A True

B False

✓ Double red lines mean no stopping at any time.

251 **True or false: A hatched area bordered by a solid line means you must not enter except in an emergency.**

A True

B False

✓ A hatched area bordered by a solid line means you must not enter except in an emergency.

252 **What does a flashing amber light at a pelican crossing mean?**

A speed up

B give way to pedestrians on the crossing

C the crossing is closed

D stop and wait for green

✓ A flashing amber at a pelican crossing means give way to pedestrians on the crossing.

253 **True or false: A flashing amber at a pelican crossing means stop and wait for green.**

A True

B False

✓ A flashing amber at a pelican crossing means give way to pedestrians on the crossing.

254 **What should you do when an emergency vehicle with flashing lights approaches?**

A pull over safely without breaking the law

B speed up

C brake sharply

D jump a red light

✓ When an emergency vehicle approaches you should pull over safely without breaking the law.

255 True or false: When an emergency vehicle approaches you should brake sharply.

A True

B False

✓ When an emergency vehicle approaches you should pull over safely without breaking the law.

256 True or false: In a built-up area you may sound your horn to greet friends.

A True

B False

✓ In a built-up area you may sound your horn only to warn of danger, not 11:30 pm–7 am.

257 True or false: On a clearway you may stop never, except in an emergency.

A True

B False

✓ On a clearway you may stop never, except in an emergency.

258 How far from a junction must you not park?

A 20 metres

B 10 metres

C 2 metres

D 5 metres

✓ You must not park within 10 metres of a junction.

259 True or false: When overtaking a cyclist at up to 30 mph leave at least 1.5 metres.

A True

B False

✓ When overtaking a cyclist at up to 30 mph leave at least 1.5 metres.

260 True or false: When passing a horse leave at least 2 metres (at no more than 10 mph).

A True

B False

✓ When passing a horse leave at least 2 metres (at no more than 10 mph).

261 When may you overtake on the left?

A at roundabouts

B whenever you want

C when traffic in the right lane is moving more slowly in queues

D on a single carriageway

✓ You may overtake on the left when traffic in the right lane is moving more slowly in queues.

262 True or false: You may overtake on the left whenever you want.

A True

B False

✓ You may overtake on the left when traffic in the right lane is moving more slowly in queues.

263 Why should you be careful overtaking a long vehicle?

A it cannot see the road

B it always slows down

C it takes longer to pass

D it has priority

✓ Take care when overtaking a long vehicle because it takes longer to pass.

264 True or false: Take care when overtaking a long vehicle because it always slows down.

A True

B False

✓ Take care when overtaking a long vehicle because it takes longer to pass.

265 True or false: If a vehicle starts to overtake you, you should maintain a steady speed and let it pass.

A True

B False

✓ If a vehicle starts to overtake you, you should maintain a steady speed and let it pass.

266 Which gear helps you pull away on snow or ice?

A fifth gear

B first gear with high revs

C reverse

D second gear

✓ On snow or ice, pull away in second gear.

267 True or false: On snow or ice, pull away in first gear with high revs.

A True

B False

✓ On snow or ice, pull away in second gear.

268 True or false: After driving through a flood you should test your horn.

A True

B False

✓ After driving through a flood you should test your brakes.

269 True or false: In strong side winds cyclists, motorcyclists and high-sided vehicles are most affected.

A True

B False

✓ In strong side winds cyclists, motorcyclists and high-sided vehicles are most affected.

270 What does ABS help you do under harsh braking?

A stop in a shorter distance always

B keep steering control

C brake without pressing the pedal

D save fuel

✓ ABS helps you keep steering control under harsh braking.

271 What is the main cause of high fuel consumption?

A driving in a high gear

B using the radio

C harsh braking and accelerating

D smooth driving

✓ A main cause of high fuel consumption is harsh braking and accelerating.

272 True or false: Heavy and uneven tyre wear can be caused by faults in the suspension or steering.

A True

B False

✓ Heavy and uneven tyre wear can be caused by faults in the suspension or steering.

273 What is the legal alcohol limit for drivers in England, per 100 ml of blood?

A 50 mg
B 20 mg
C 100 mg
D 80 mg

✓ In England the legal limit is 80 mg per 100 ml of blood.

274 True or false: In England the legal limit is 50 mg per 100 ml of blood.

A True
B False

✓ In England the legal limit is 80 mg per 100 ml of blood.

275 What is the legal alcohol limit for drivers in Scotland, per 100 ml of blood?

A 50 mg
B 80 mg
C 100 mg
D 35 mg

✓ In Scotland the legal limit is 50 mg per 100 ml of blood.

276 How long is a theory test pass certificate valid?

A 5 years
B 6 months
C 2 years
D 1 year

✓ A theory test pass certificate is valid for 2 years.

277 True or false: A theory test pass certificate is valid for 1 year.

A True
B False

✓ A theory test pass certificate is valid for 2 years.

278 True or false: After an injury collision without exchanging details you must report it to the police as soon as possible, within 24 hours.

A True
B False

✓ After an injury collision without exchanging details you must report it to the police as soon as possible, within 24 hours.

279 True or false: A learner's supervisor must be at least 21 and have held a full licence for 3 years.

A True
B False

✓ A learner's supervisor must be at least 21 and have held a full licence for 3 years.

280 What should you do if you feel tired on a motorway?

A speed up to get home
B open the window and carry on
C leave at the next exit and rest
D stop on the hard shoulder

✓ If tired on a motorway you should leave at the next exit and rest.

281 True or false: If tired on a motorway you should stop on the hard shoulder.

A True

B False

✓ If tired on a motorway you should leave at the next exit and rest.

282 True or false: A head restraint is there to make driving comfortable.

A True

B False

✓ A head restraint is there to reduce neck injuries in a collision.

283 True or false: When the amber light and alarm start at a level crossing you should stop, unless you are too close to stop safely.

A True

B False

✓ When the amber light and alarm start at a level crossing you should stop, unless you are too close to stop safely.

284 Which of these statements is correct?

A A red X above a lane means the lane is closed — do not use it.

B A red X above a lane means bus lane.

C A red X above a lane means slow down.

D A red X above a lane means overtaking lane.

✓ A red X above a lane means the lane is closed — do not use it.

285 What colour are the reflective studs between the motorway and slip roads?

A green

B red

C white

D amber

✓ Studs between the motorway and slip roads are green.

286 What colour are reflective studs on the left edge of a motorway?

A white

B green

C amber

D red

✓ Studs on the left edge of a motorway are red.

287 What colour are reflective studs next to the central reservation?

A red

B amber

C blue

D green

✓ Studs next to the central reservation are amber.

288 True or false: A speed in a red ring on a smart motorway is mandatory.

A True

B False

✓ A speed in a red ring on a smart motorway is mandatory.

289 **Which of these statements is correct?**

A The hazard perception test has 20 clips.

B The hazard perception test has 14 clips.

C The hazard perception test has 10 clips.

D The hazard perception test has 15 clips.

✓ The hazard perception test has 14 clips.

290 **What is a "developing hazard"?**

A something that makes you change speed or direction

B a road sign

C any parked car

D any pedestrian on the pavement

✓ A developing hazard is something that makes you change speed or direction.

291 **True or false: A developing hazard is any parked car.**

A True

B False

✓ A developing hazard is something that makes you change speed or direction.

292 **True or false: Near a stopped bus you should expect pedestrians stepping out from in front of it.**

A True

B False

✓ Near a stopped bus you should expect pedestrians stepping out from in front of it.

293 **Should you remove an injured motorcyclist's helmet?**

A to give them air

B to check their identity

C always

D only if essential, e.g. they are not breathing

✓ You should remove an injured motorcyclist's helmet only if essential, e.g. they are not breathing.

294 **True or false: You should remove an injured motorcyclist's helmet always.**

A True

B False

✓ You should remove an injured motorcyclist's helmet only if essential, e.g. they are not breathing.

295 **True or false: Chest compressions for an adult should be 5–6 cm deep.**

A True

B False

✓ Chest compressions for an adult should be 5–6 cm deep.

296 **True or false: Chest compressions should be given at 100–120 per minute.**

A True

B False

✓ Chest compressions should be given at 100–120 per minute.

297 **True or false: Give motorcyclists extra room because they are always fast.**

A True

B False

✓ Give motorcyclists extra room because they are harder to see and may swerve.

298 **What should you do when following a learner driver who stalls?**

A flash your lights

B sound your horn

C overtake immediately

D be patient and wait

✓ When a learner stalls ahead you should be patient and wait.

299 **What does "eco-safe" driving achieve?**

A faster journeys

B lower fuel use and fewer emissions

C more tyre wear

D higher insurance

✓ Eco-safe driving achieves lower fuel use and fewer emissions.

300 **True or false: Eco-safe driving achieves faster journeys.**

A True

B False

✓ Eco-safe driving achieves lower fuel use and fewer emissions.

QUESTION BANK

Level 4 — Advanced

100 questions · correct answer highlighted green with a short explanation

301 **What is the safest advice about drinking and driving?**

- A Eat before
- **B Do not drink any alcohol**
- C Drink and wait one hour
- D Drink only one

✓ Don't drink any alcohol if you are going to drive.

302 **True or false: The legal alcohol limit in Scotland is lower than in England.**

- **A True**
- B False

✓ True: 50 mg in Scotland vs 80 mg in England per 100 ml of blood.

303 **Using a hand-held mobile phone while driving is...**

- A Allowed in traffic
- B Allowed if short
- C Allowed on motorways
- **D Illegal**

✓ It is illegal.

304 **Who is responsible for seat belt use by a passenger under 14?**

- A Nobody
- **B The driver**
- C The parent only
- D The child

✓ The driver is responsible.

305 **Children must use a child car seat until they are 12 years old or...**

- A 120 cm tall
- **B 135 cm tall**
- C 140 cm tall
- D 150 cm tall

✓ 135 cm, whichever comes first.

306 **What is the minimum insurance cover required by law?**

- A Fully comprehensive
- **B Third party**
- C Fire and theft
- D Breakdown cover

✓ Third-party insurance.

307 **On slippery roads, pulling away is easier in...**

A First gear with high revs
B Reverse
C Second gear
D Neutral

✓ Second gear reduces wheelspin.

308 **What is the maximum score for each hazard?**

A 1
B 3
C 10
D 5

✓ 5 points.

309 **If you click continuously during a clip, you will...**

A Be disqualified
B Score highly
C Get a bonus
D Score zero for that clip

✓ You score zero for that clip.

310 **A developing hazard is something that...**

A Is already past
B May cause you to change speed or direction
C Is a road sign
D Is a pedestrian far away

✓ Something that may make you change speed or direction.

311 **You see an ice cream van parked with children nearby. You should...**

A Slow down and be ready to stop
B Speed up
C Sound your horn
D Ignore

✓ Slow down and be ready to stop.

312 **Why must you take extra care at junctions with motorcyclists?**

A They are noisy
B They are slow
C They never signal
D They are harder to see

✓ They are harder to see.

313 **At an accident, what should you do first?**

A Move casualties
B Remove helmet
C Leave
D Warn others and switch off engines

✓ Warn other traffic and switch off engines.

314 You are in an accident causing damage. What must you do?

A Wait one week
B Stop and exchange details
C Call a friend
D Drive on

✓ Stop and exchange details.

315 A spongy brake pedal suggests...

A New brakes
B Cold weather
C Normal
D A fault - get it checked

✓ A fault that needs checking.

316 Which of these statements is correct?

A On a single carriageway the national limit for cars is 70 mph.
B On a single carriageway the national limit for cars is 40 mph.
C On a single carriageway the national limit for cars is 50 mph.
D On a single carriageway the national limit for cars is 60 mph.

✓ On a single carriageway the national limit for cars is 60 mph.

317 Which of these statements is correct?

A On a dual carriageway the national limit for cars is 60 mph.
B On a dual carriageway the national limit for cars is 80 mph.
C On a dual carriageway the national limit for cars is 70 mph.
D On a dual carriageway the national limit for cars is 50 mph.

✓ On a dual carriageway the national limit for cars is 70 mph.

318 What is the speed limit for a goods vehicle over 7.5 tonnes on a dual carriageway in England?

A 60 mph
B 70 mph
C 40 mph
D 50 mph

✓ Goods vehicles over 7.5 tonnes on a dual carriageway in England are limited to 60 mph.

319 True or false: Goods vehicles over 7.5 tonnes on a dual carriageway in England are limited to 70 mph.

A True
B False

✓ Goods vehicles over 7.5 tonnes on a dual carriageway in England are limited to 60 mph.

320 Which of these statements is correct?

A At 20 mph the typical overall stopping distance is 6 metres.
B At 20 mph the typical overall stopping distance is 18 metres.
C At 20 mph the typical overall stopping distance is 12 metres.
D At 20 mph the typical overall stopping distance is 23 metres.

✓ At 20 mph the typical overall stopping distance is 12 metres.

321 Which of these statements is correct?

A At 50 mph the typical overall stopping distance is 53 metres.
B At 50 mph the typical overall stopping distance is 36 metres.
C At 50 mph the typical overall stopping distance is 73 metres.
D At 50 mph the typical overall stopping distance is 45 metres.

✓ At 50 mph the typical overall stopping distance is 53 metres.

322 **Which of these statements is correct?**

A At 60 mph the typical overall stopping distance is 73 metres.
B At 60 mph the typical overall stopping distance is 60 metres.
C At 60 mph the typical overall stopping distance is 96 metres.
D At 60 mph the typical overall stopping distance is 53 metres.

✓ At 60 mph the typical overall stopping distance is 73 metres.

323 **What mainly increases your thinking distance?**

A worn tyres
B a wet road
C tiredness, alcohol or distraction
D a heavy load

✓ Thinking distance is mainly increased by tiredness, alcohol or distraction.

324 **True or false: Thinking distance is mainly increased by worn tyres.**

A True
B False

✓ Thinking distance is mainly increased by tiredness, alcohol or distraction.

325 **Which of these statements is correct?**

A Direction signs on motorways are brown.
B Direction signs on motorways are blue.
C Direction signs on motorways are white.
D Direction signs on motorways are green.

✓ Direction signs on motorways are blue.

326 **Which of these statements is correct?**

A Direction signs on primary routes are white.
B Direction signs on primary routes are green.
C Direction signs on primary routes are brown.
D Direction signs on primary routes are blue.

✓ Direction signs on primary routes are green.

327 **Which of these statements is correct?**

A Signs for tourist attractions are green.
B Signs for tourist attractions are blue.
C Signs for tourist attractions are brown.
D Signs for tourist attractions are yellow.

✓ Signs for tourist attractions are brown.

328 **What does a blue circle with a white bicycle mean?**

A route for cycles only
B cycles crossing ahead
C cycle parking
D no cycling

✓ A blue circle with a white bicycle means route for cycles only.

329 **A red triangle showing two children walking warns of what?**

A a pedestrian zone
B a school or children ahead
C a zebra crossing
D a playground only

✓ A red triangle with two children walking warns of a school or children ahead.

330 What does a sign showing a red circle with "20" and the word ZONE mean?

- **A a 20 mph limit applies throughout the zone**
- B minimum speed 20 mph
- C 20 parking spaces
- D advisory 20 mph only

✓ A "20 ZONE" sign means a 20 mph limit applies throughout the zone.

331 True or false: A "20 ZONE" sign means minimum speed 20 mph.

- A True
- **B False**

✓ A "20 ZONE" sign means a 20 mph limit applies throughout the zone.

332 What does a blue rectangular sign with a white "P" mean?

- A petrol station
- B priority road
- C police station
- **D parking place**

✓ A blue rectangle with a white P means parking place.

333 True or false: A blue rectangle with a white P means police station.

- A True
- **B False**

✓ A blue rectangle with a white P means parking place.

334 Which of these statements is correct?

- **A A single yellow line means waiting is restricted at times shown on nearby signs.**
- B A single yellow line means no waiting at any time.
- C A single yellow line means loading only.
- D A single yellow line means parking is free.

✓ A single yellow line means waiting is restricted at times shown on nearby signs.

335 Which of these statements is correct?

- A Zigzag lines at a crossing mean slow down only.
- B Zigzag lines at a crossing mean bus stop.
- **C Zigzag lines at a crossing mean no parking or overtaking.**
- D Zigzag lines at a crossing mean cycle lane.

✓ Zigzag lines at a crossing mean no parking or overtaking.

336 Which of these statements is correct?

- A At a yellow box junction, give way to buses only.
- B At a yellow box junction, you may wait inside.
- C At a yellow box junction, parking is allowed.
- **D At a yellow box junction, do not enter unless your exit is clear.**

✓ At a yellow box junction, do not enter unless your exit is clear.

337 What do white diagonal stripes bordered by a solid white line (hatched area) mean?

- A overtaking area
- B you may park there
- C bus stop
- **D you must not enter except in an emergency**

✓ A hatched area bordered by a solid line means you must not enter except in an emergency.

338 **True or false: A hatched area bordered by a solid line means you may park there.**

A True

B False

✓ A hatched area bordered by a solid line means you must not enter except in an emergency.

339 **Which of these statements is correct?**

A A long white line with short gaps is a give way line.

B A long white line with short gaps is a hazard warning line.

C A long white line with short gaps is a cycle lane.

D A long white line with short gaps is a lane line.

✓ A long white line with short gaps is a hazard warning line.

340 **Which of these statements is correct?**

A At an unmarked crossroads the larger vehicle.

B At an unmarked crossroads traffic from the left.

C At an unmarked crossroads the faster vehicle.

D At an unmarked crossroads nobody has priority.

✓ At an unmarked crossroads nobody has priority.

341 **Which of these statements is correct?**

A When turning into a side road you should give way to pedestrians only if they wave.

B When turning into a side road you should give way to pedestrians waiting to cross it.

C When turning into a side road you should give way to pedestrians never.

D When turning into a side road you should give way to pedestrians only on a zebra crossing.

✓ When turning into a side road you should give way to pedestrians waiting to cross it.

342 **Which of these statements is correct?**

A You should use Mirror–Signal–Manoeuvre only on motorways.

B You should use Mirror–Signal–Manoeuvre only when overtaking.

C You should use Mirror–Signal–Manoeuvre before every change of speed or direction.

D You should use Mirror–Signal–Manoeuvre only at night.

✓ You should use Mirror–Signal–Manoeuvre before every change of speed or direction.

343 **When may you sound your horn in a built-up area?**

A to greet friends

B only to warn of danger, not 11:30 pm–7 am

C whenever you are delayed

D at any time

✓ In a built-up area you may sound your horn only to warn of danger, not 11:30 pm–7 am.

344 **When may you stop on a clearway?**

A at night

B for up to 5 minutes

C never, except in an emergency

D to pick up passengers

✓ On a clearway you may stop never, except in an emergency.

345 **True or false: On a clearway you may stop to pick up passengers.**

A True

B False

✓ On a clearway you may stop never, except in an emergency.

346 **What is the minimum gap to leave when overtaking a cyclist at up to 30 mph?**

A 3 metres

B 0.5 metres

C 1.5 metres

D 1 metre

✓ When overtaking a cyclist at up to 30 mph leave at least 1.5 metres.

347 **True or false: When overtaking a cyclist at up to 30 mph leave at least 0.5 metres.**

A True

B False

✓ When overtaking a cyclist at up to 30 mph leave at least 1.5 metres.

348 **When passing a horse at low speed, what minimum distance should you leave?**

A 2 metres (at no more than 10 mph)

B 5 metres at 30 mph

C 50 cm

D 1 metre

✓ When passing a horse leave at least 2 metres (at no more than 10 mph).

349 **True or false: When passing a horse leave at least 1 metre.**

A True

B False

✓ When passing a horse leave at least 2 metres (at no more than 10 mph).

350 **Which of these statements is correct?**

A You should normally overtake on the left.

B You should normally overtake on the hard shoulder.

C You should normally overtake on either side.

D You should normally overtake on the right.

✓ You should normally overtake on the right.

351 **What should you do if a vehicle starts to overtake you?**

A speed up

B maintain a steady speed and let it pass

C move to the right

D brake hard

✓ If a vehicle starts to overtake you, you should maintain a steady speed and let it pass.

352 **True or false: If a vehicle starts to overtake you, you should speed up.**

A True

B False

✓ If a vehicle starts to overtake you, you should maintain a steady speed and let it pass.

353 **Which of these statements is correct?**

A If your car aquaplanes you should steer sharply.

B If your car aquaplanes you should ease off the accelerator.

C If your car aquaplanes you should brake hard.

D If your car aquaplanes you should accelerate.

✓ If your car aquaplanes you should ease off the accelerator.

354 **After driving through a flood, what should you test first?**

A mirrors

B horn

C brakes

D lights

✓ After driving through a flood you should test your brakes.

355 **In strong side winds, which vehicles are most affected?**

A buses only

B cyclists, motorcyclists and high-sided vehicles

C small cars only

D tractors

✓ In strong side winds cyclists, motorcyclists and high-sided vehicles are most affected.

356 **True or false: In strong side winds buses only are most affected.**

A True

B False

✓ In strong side winds cyclists, motorcyclists and high-sided vehicles are most affected.

357 **Which of these statements is correct?**

A When dazzled at night you should flash your lights.

B When dazzled at night you should close your eyes.

C When dazzled at night you should slow down or stop.

D When dazzled at night you should speed up.

✓ When dazzled at night you should slow down or stop.

358 **Which of these statements is correct?**

A A car needs its first MOT when it is 10 years old.

B A car needs its first MOT when it is 5 years old.

C A car needs its first MOT when it is 3 years old.

D A car needs its first MOT when it is 1 year old.

✓ A car needs its first MOT when it is 3 years old.

359 **Which of these statements is correct?**

A Check tyre pressures when the tyres are cold.

B Check tyre pressures when they are hot.

C Check tyre pressures only at the MOT.

D Check tyre pressures after a long drive.

✓ Check tyre pressures when the tyres are cold.

360 **What can cause heavy and uneven tyre wear?**

A low engine oil

B faults in the suspension or steering

C a full fuel tank

D using the heater

✓ Heavy and uneven tyre wear can be caused by faults in the suspension or steering.

361 True or false: Heavy and uneven tyre wear can be caused by a full fuel tank.

A True

B False

✓ Heavy and uneven tyre wear can be caused by faults in the suspension or steering.

362 True or false: An unused roof rack will improve road holding.

A True

B False

✓ An unused roof rack will increase fuel consumption.

363 Which of these statements is correct?

A A child seat must be used until 12 years old or 150 cm tall.

B A child seat must be used until 12 years old or 120 cm tall.

C A child seat must be used until 12 years old or 100 cm tall.

D A child seat must be used until 12 years old or 135 cm tall.

✓ A child seat must be used until 12 years old or 135 cm tall.

364 Which of these statements is correct?

A The legal minimum insurance is fully comprehensive.

B The legal minimum insurance is third party.

C The legal minimum insurance is fire and theft only.

D The legal minimum insurance is no insurance.

✓ The legal minimum insurance is third party.

365 Which of these statements is correct?

A 6 penalty points within 2 years of passing means nothing.

B 6 penalty points within 2 years of passing means a warning letter.

C 6 penalty points within 2 years of passing means your licence is revoked.

D 6 penalty points within 2 years of passing means a small fine.

✓ 6 penalty points within 2 years of passing means your licence is revoked.

366 What must you do if you are involved in a collision causing injury and do not exchange details at the scene?

A only if asked

B as soon as possible, within 24 hours

C within 7 days

D within a month

✓ After an injury collision without exchanging details you must report it to the police as soon as possible, within 24 hours.

367 True or false: After an injury collision without exchanging details you must report it to the police within 7 days.

A True

B False

✓ After an injury collision without exchanging details you must report it to the police as soon as possible, within 24 hours.

368 A learner driver's supervisor must be at least how old?

A 21 and have held a full licence for 3 years

B 18

C 17

D 25 with 10 years' experience

✓ A learner's supervisor must be at least 21 and have held a full licence for 3 years.

369 **True or false: A learner's supervisor must be at least 18.**

A True

B False

✓ A learner's supervisor must be at least 21 and have held a full licence for 3 years.

370 **True or false: If asked by the police you must produce your driving licence and insurance certificate.**

A True

B False

✓ If asked by the police you must produce your driving licence and insurance certificate.

371 **Which of these statements is correct?**

A On a long journey take a break only when hungry.

B On a long journey take a break every 4 hours.

C On a long journey take a break never.

D On a long journey take a break at least every 2 hours.

✓ On a long journey take a break at least every 2 hours.

372 **What is the purpose of a head restraint?**

A make driving comfortable

B reduce neck injuries in a collision

C help you reverse

D support your back

✓ A head restraint is there to reduce neck injuries in a collision.

373 **True or false: When the amber light and alarm start at a level crossing you should speed up to cross.**

A True

B False

✓ When the amber light and alarm start at a level crossing you should stop, unless you are too close to stop safely.

374 **True or false: If you break down on a level crossing, first get everyone out and clear of the crossing.**

A True

B False

✓ If you break down on a level crossing, first get everyone out and clear of the crossing.

375 **Which of these statements is correct?**

A On a motorway you should normally drive in the right-hand lane.

B On a motorway you should normally drive in the left-hand lane.

C On a motorway you should normally drive in the middle lane.

D On a motorway you should normally drive in any lane.

✓ On a motorway you should normally drive in the left-hand lane.

376 **Which of these is NOT allowed on a motorway?**

A Large lorries

B Motorcycles under 50 cc

C Buses

D Cars towing caravans

✓ Motorcycles under 50 cc are not allowed on a motorway.

377 **True or false: Large lorries are not allowed on a motorway.**

A True

B False

✓ Motorcycles under 50 cc are not allowed on a motorway.

378 **On a smart motorway, what does a speed limit in a red ring mean?**

A mandatory

B a minimum speed

C advisory only

D for lorries only

✓ A speed in a red ring on a smart motorway is mandatory.

379 **True or false: A speed in a red ring on a smart motorway is advisory only.**

A True

B False

✓ A speed in a red ring on a smart motorway is mandatory.

380 **A ball rolls into the road ahead. What should you expect?**

A a dog only

B a parked car to move

C nothing — it is harmless

D a child to run out after it

✓ When a ball rolls into the road you should expect a child to run out after it.

381 **You see a bus stopped at a bus stop ahead. What hazard should you expect?**

A cyclists to stop

B pedestrians stepping out from in front of it

C nothing

D the bus to reverse

✓ Near a stopped bus you should expect pedestrians stepping out from in front of it.

382 **True or false: Near a stopped bus you should expect the bus to reverse.**

A True

B False

✓ Near a stopped bus you should expect pedestrians stepping out from in front of it.

383 **True or false: Reversing lights on a parked car mean it may be about to move backwards.**

A True

B False

✓ Reversing lights on a parked car mean it may be about to move backwards.

384 **Which of these statements is correct?**

A At an incident the first thing to do is remove helmets.

B At an incident the first thing to do is leave the scene.

C At an incident the first thing to do is move the casualties.

D At an incident the first thing to do is warn other traffic and switch off engines.

✓ At an incident the first thing to do is warn other traffic and switch off engines.

385 When giving CPR to an adult, how deep should chest compressions be?

A 1–2 cm
B 10 cm
C 2–3 cm
D 5–6 cm

✓ Chest compressions for an adult should be 5–6 cm deep.

386 True or false: Chest compressions for an adult should be 1–2 cm deep.

A True
B False

✓ Chest compressions for an adult should be 5–6 cm deep.

387 At what rate should you give chest compressions?

A 60 per minute
B 200 per minute
C 100–120 per minute
D 30 per minute

✓ Chest compressions should be given at 100–120 per minute.

388 True or false: Chest compressions should be given at 30 per minute.

A True
B False

✓ Chest compressions should be given at 100–120 per minute.

389 True or false: Treat a burn by cooling it with cool water for at least 10 minutes.

A True
B False

✓ Treat a burn by cooling it with cool water for at least 10 minutes.

390 Which of these statements is correct?

A A white stick with red bands means the person is a learner.
B A white stick with red bands means the person is a road worker.
C A white stick with red bands means the person is elderly only.
D A white stick with red bands means the person is deaf and blind.

✓ A white stick with red bands means the person is deaf and blind.

391 Why should you give motorcyclists extra room at junctions?

A they are always fast
B they are harder to see and may swerve
C they have priority
D they cannot brake

✓ Give motorcyclists extra room because they are harder to see and may swerve.

392 A school crossing patrol shows a STOP sign. What must you do?

A stop
B slow down only
C drive past carefully
D sound your horn

✓ When a school crossing patrol shows STOP you must stop.

393 **True or false: When a school crossing patrol shows STOP you must slow down only.**

A True

B False

✓ When a school crossing patrol shows STOP you must stop.

394 **True or false: The road users most at risk from car doors opening are cyclists.**

A True

B False

✓ The road users most at risk from car doors opening are cyclists.

395 **Which of these statements is correct?**

A When a red warning light comes on you should turn up the radio.

B When a red warning light comes on you should stop safely and check.

C When a red warning light comes on you should ignore it.

D When a red warning light comes on you should drive faster to a garage.

✓ When a red warning light comes on you should stop safely and check.

396 **True or false: Catalytic converters are fitted to reduce harmful exhaust gases.**

A True

B False

✓ Catalytic converters are fitted to reduce harmful exhaust gases.

397 **True or false: KEEP CLEAR markings mean do not block that area.**

A True

B False

✓ KEEP CLEAR markings mean do not block that area.

398 **True or false: Red and amber together means stop — do not go until green.**

A True

B False

✓ Red and amber together means stop — do not go until green.

399 **True or false: Following tail lights closely in fog is dangerous because it gives a false sense of security.**

A True

B False

✓ Following tail lights closely in fog is dangerous because it gives a false sense of security.

400 **True or false: Before opening your door use your hand furthest from the door to look behind.**

A True

B False

✓ Before opening your door use your hand furthest from the door to look behind.

QUESTION BANK

Level 5 — Expert

100 questions · correct answer highlighted green with a short explanation

401 **If you pass your test and get 6 penalty points within 2 years, you will...**

A Retake theory only

B Pay extra

C Lose your licence

D Nothing

✓ Your licence is revoked and you must retake your tests.

402 **What is the pass mark for hazard perception?**

A 43 out of 50

B 44 out of 75

C 50 out of 75

D 33 out of 50

✓ 44 out of 75.

403 **Which of these statements is correct?**

A A car towing a caravan on a motorway is limited to 50 mph.

B A car towing a caravan on a motorway is limited to 40 mph.

C A car towing a caravan on a motorway is limited to 60 mph.

D A car towing a caravan on a motorway is limited to 70 mph.

✓ A car towing a caravan on a motorway is limited to 60 mph.

404 **Which of these statements is correct?**

A A car towing a trailer on a single carriageway is limited to 70 mph.

B A car towing a trailer on a single carriageway is limited to 40 mph.

C A car towing a trailer on a single carriageway is limited to 60 mph.

D A car towing a trailer on a single carriageway is limited to 50 mph.

✓ A car towing a trailer on a single carriageway is limited to 50 mph.

405 **Which of these statements is correct?**

A Goods vehicles over 7.5 tonnes on a dual carriageway in England are limited to 40 mph.

B Goods vehicles over 7.5 tonnes on a dual carriageway in England are limited to 60 mph.

C Goods vehicles over 7.5 tonnes on a dual carriageway in England are limited to 50 mph.

D Goods vehicles over 7.5 tonnes on a dual carriageway in England are limited to 70 mph.

✓ Goods vehicles over 7.5 tonnes on a dual carriageway in England are limited to 60 mph.

406 **Which of these statements is correct?**

A At 30 mph the typical thinking distance is 6 metres.

B At 30 mph the typical thinking distance is 12 metres.

C At 30 mph the typical thinking distance is 9 metres.

D At 30 mph the typical thinking distance is 14 metres.

✓ At 30 mph the typical thinking distance is 9 metres.

407 **Which of these statements is correct?**

A At 70 mph the typical braking distance is 55 metres.

B At 70 mph the typical braking distance is 38 metres.

C At 70 mph the typical braking distance is 75 metres.

D At 70 mph the typical braking distance is 96 metres.

✓ At 70 mph the typical braking distance is 75 metres.

408 **Which of these statements is correct?**

A At 70 mph the typical thinking distance is 18 metres.

B At 70 mph the typical thinking distance is 15 metres.

C At 70 mph the typical thinking distance is 21 metres.

D At 70 mph the typical thinking distance is 30 metres.

✓ At 70 mph the typical thinking distance is 21 metres.

409 **Which of these statements is correct?**

A In wet weather stopping distances are at least double those on dry roads.

B In wet weather stopping distances are at least ten times those on dry roads.

C In wet weather stopping distances are at least half those on dry roads.

D In wet weather stopping distances are at least the same as those on dry roads.

✓ In wet weather stopping distances are at least double those on dry roads.

410 **On icy roads, braking distances can be up to how many times longer than normal?**

A ten times

B twice

C three times

D five times

✓ On icy roads braking distances can be up to ten times longer.

411 **Which of these statements is correct?**

A On icy roads braking distances can be up to twice longer.

B On icy roads braking distances can be up to five times longer.

C On icy roads braking distances can be up to ten times longer.

D On icy roads braking distances can be up to three times longer.

✓ On icy roads braking distances can be up to ten times longer.

412 **Which of these statements is correct?**

A Thinking distance is mainly increased by worn tyres.

B Thinking distance is mainly increased by a wet road.

C Thinking distance is mainly increased by a heavy load.

D Thinking distance is mainly increased by tiredness, alcohol or distraction.

✓ Thinking distance is mainly increased by tiredness, alcohol or distraction.

413 **Which of these statements is correct?**

A A red circle showing a black car beside a red car means two-way traffic.

B A red circle showing a black car beside a red car means car park.

C A red circle showing a black car beside a red car means no parking.

D A red circle showing a black car beside a red car means no overtaking.

✓ A red circle showing a black car beside a red car means no overtaking.

414 **Which of these statements is correct?**

A A blue circle with a white bicycle means route for cycles only.

B A blue circle with a white bicycle means cycle parking.

C A blue circle with a white bicycle means cycles crossing ahead.

D A blue circle with a white bicycle means no cycling.

✓ A blue circle with a white bicycle means route for cycles only.

415 **Which of these statements is correct?**

A A red triangle with two children walking warns of a school or children ahead.

B A red triangle with two children walking warns of a pedestrian zone.

C A red triangle with two children walking warns of a playground only.

D A red triangle with two children walking warns of a zebra crossing.

✓ A red triangle with two children walking warns of a school or children ahead.

416 **Which of these statements is correct?**

A A "20 ZONE" sign means minimum speed 20 mph.

B A "20 ZONE" sign means 20 parking spaces.

C A "20 ZONE" sign means advisory 20 mph only.

D A "20 ZONE" sign means a 20 mph limit applies throughout the zone.

✓ A "20 ZONE" sign means a 20 mph limit applies throughout the zone.

417 **Which of these statements is correct?**

A A blue rectangle with a white P means priority road.

B A blue rectangle with a white P means parking place.

C A blue rectangle with a white P means petrol station.

D A blue rectangle with a white P means police station.

✓ A blue rectangle with a white P means parking place.

418 **Which of these statements is correct?**

A Double red lines mean parking for permit holders.

B Double red lines mean no stopping at any time.

C Double red lines mean stopping allowed at night.

D Double red lines mean bus lane.

✓ Double red lines mean no stopping at any time.

419 **Which of these statements is correct?**

A A hatched area bordered by a solid line means you may park there.

B A hatched area bordered by a solid line means bus stop.

C A hatched area bordered by a solid line means you must not enter except in an emergency.

D A hatched area bordered by a solid line means overtaking area.

✓ A hatched area bordered by a solid line means you must not enter except in an emergency.

420 **Which of these statements is correct?**

A A flashing amber at a pelican crossing means give way to pedestrians on the crossing.

B A flashing amber at a pelican crossing means speed up.

C A flashing amber at a pelican crossing means stop and wait for green.

D A flashing amber at a pelican crossing means the crossing is closed.

✓ A flashing amber at a pelican crossing means give way to pedestrians on the crossing.

421 **Which of these statements is correct?**

A When an emergency vehicle approaches you should jump a red light.

B When an emergency vehicle approaches you should speed up.

C When an emergency vehicle approaches you should pull over safely without breaking the law.

D When an emergency vehicle approaches you should brake sharply.

✓ When an emergency vehicle approaches you should pull over safely without breaking the law.

422 **Which of these statements is correct?**

A In a built-up area you may sound your horn to greet friends.

B In a built-up area you may sound your horn at any time.

C In a built-up area you may sound your horn whenever you are delayed.

D In a built-up area you may sound your horn only to warn of danger, not 11:30 pm–7 am.

✓ In a built-up area you may sound your horn only to warn of danger, not 11:30 pm–7 am.

423 **Which of these statements is correct?**

A On a clearway you may stop for up to 5 minutes.

B On a clearway you may stop never, except in an emergency.

C On a clearway you may stop at night.

D On a clearway you may stop to pick up passengers.

✓ On a clearway you may stop never, except in an emergency.

424 **Which of these statements is correct?**

A You must not park within 20 metres of a junction.

B You must not park within 2 metres of a junction.

C You must not park within 5 metres of a junction.

D You must not park within 10 metres of a junction.

✓ You must not park within 10 metres of a junction.

425 **Which of these statements is correct?**

A When overtaking a cyclist at up to 30 mph leave at least 1.5 metres.

B When overtaking a cyclist at up to 30 mph leave at least 1 metre.

C When overtaking a cyclist at up to 30 mph leave at least 3 metres.

D When overtaking a cyclist at up to 30 mph leave at least 0.5 metres.

✓ When overtaking a cyclist at up to 30 mph leave at least 1.5 metres.

426 **Which of these statements is correct?**

A When passing a horse leave at least 50 cm.

B When passing a horse leave at least 2 metres (at no more than 10 mph).

C When passing a horse leave at least 1 metre.

D When passing a horse leave at least 5 metres at 30 mph.

✓ When passing a horse leave at least 2 metres (at no more than 10 mph).

427 **Which of these statements is correct?**

A You may overtake on the left on a single carriageway.

B You may overtake on the left whenever you want.

C You may overtake on the left at roundabouts.

D You may overtake on the left when traffic in the right lane is moving more slowly in queues.

✓ You may overtake on the left when traffic in the right lane is moving more slowly in queues.

428 **Which of these statements is correct?**

A Take care when overtaking a long vehicle because it always slows down.

B Take care when overtaking a long vehicle because it takes longer to pass.

C Take care when overtaking a long vehicle because it cannot see the road.

D Take care when overtaking a long vehicle because it has priority.

✓ Take care when overtaking a long vehicle because it takes longer to pass.

429 **Which of these statements is correct?**

A If a vehicle starts to overtake you, you should brake hard.

B If a vehicle starts to overtake you, you should maintain a steady speed and let it pass.

C If a vehicle starts to overtake you, you should move to the right.

D If a vehicle starts to overtake you, you should speed up.

✓ If a vehicle starts to overtake you, you should maintain a steady speed and let it pass.

430 **Which of these statements is correct?**

A On snow or ice, pull away in first gear with high revs.

B On snow or ice, pull away in fifth gear.

C On snow or ice, pull away in second gear.

D On snow or ice, pull away in reverse.

✓ On snow or ice, pull away in second gear.

431 **Which of these statements is correct?**

A After driving through a flood you should test your brakes.

B After driving through a flood you should test your mirrors.

C After driving through a flood you should test your lights.

D After driving through a flood you should test your horn.

✓ After driving through a flood you should test your brakes.

432 **Which of these statements is correct?**

A In strong side winds buses only are most affected.

B In strong side winds small cars only are most affected.

C In strong side winds tractors are most affected.

D In strong side winds cyclists, motorcyclists and high-sided vehicles are most affected.

✓ In strong side winds cyclists, motorcyclists and high-sided vehicles are most affected.

433 **Which of these statements is correct?**

A ABS helps you stop in a shorter distance always under harsh braking.

B ABS helps you save fuel under harsh braking.

C ABS helps you keep steering control under harsh braking.

D ABS helps you brake without pressing the pedal under harsh braking.

✓ ABS helps you keep steering control under harsh braking.

434 **Which of these statements is correct?**

A A main cause of high fuel consumption is driving in a high gear.

B A main cause of high fuel consumption is smooth driving.

C A main cause of high fuel consumption is harsh braking and accelerating.

D A main cause of high fuel consumption is using the radio.

✓ A main cause of high fuel consumption is harsh braking and accelerating.

435 **Which of these statements is correct?**

A Heavy and uneven tyre wear can be caused by low engine oil.

B Heavy and uneven tyre wear can be caused by using the heater.

C Heavy and uneven tyre wear can be caused by faults in the suspension or steering.

D Heavy and uneven tyre wear can be caused by a full fuel tank.

✓ Heavy and uneven tyre wear can be caused by faults in the suspension or steering.

436 **A roof rack that is fitted but not in use will...**

A increase fuel consumption

B reduce noise

C improve road holding

D do nothing

✓ An unused roof rack will increase fuel consumption.

437 **Which of these statements is correct?**

A An unused roof rack will do nothing.

B An unused roof rack will reduce noise.

C An unused roof rack will improve road holding.

D An unused roof rack will increase fuel consumption.

✓ An unused roof rack will increase fuel consumption.

438 **Which of these statements is correct?**

A In England the legal limit is 20 mg per 100 ml of blood.

B In England the legal limit is 80 mg per 100 ml of blood.

C In England the legal limit is 50 mg per 100 ml of blood.

D In England the legal limit is 100 mg per 100 ml of blood.

✓ In England the legal limit is 80 mg per 100 ml of blood.

439 **Which of these statements is correct?**

A In Scotland the legal limit is 100 mg per 100 ml of blood.

B In Scotland the legal limit is 80 mg per 100 ml of blood.

C In Scotland the legal limit is 35 mg per 100 ml of blood.

D In Scotland the legal limit is 50 mg per 100 ml of blood.

✓ In Scotland the legal limit is 50 mg per 100 ml of blood.

440 **Which of these statements is correct?**

A A theory test pass certificate is valid for 1 year.

B A theory test pass certificate is valid for 2 years.

C A theory test pass certificate is valid for 5 years.

D A theory test pass certificate is valid for 6 months.

✓ A theory test pass certificate is valid for 2 years.

441 **Which of these statements is correct?**

A After an injury collision without exchanging details you must report it to the police only if asked.

B After an injury collision without exchanging details you must report it to the police as soon as possible, within 24 hours.

C After an injury collision without exchanging details you must report it to the police within 7 days.

D After an injury collision without exchanging details you must report it to the police within a month.

✓ After an injury collision without exchanging details you must report it to the police as soon as possible, within 24 hours.

442 **Which of these statements is correct?**

A A learner's supervisor must be at least 21 and have held a full licence for 3 years.

B A learner's supervisor must be at least 17.

C A learner's supervisor must be at least 18.

D A learner's supervisor must be at least 25 with 10 years' experience.

✓ A learner's supervisor must be at least 21 and have held a full licence for 3 years.

443 **Which document must you be able to produce if the police ask?**

A your driving licence and insurance certificate

B your tax disc

C your service history

D your passport only

✓ If asked by the police you must produce your driving licence and insurance certificate.

444 **True or false: If asked by the police you must produce your passport only.**

A True

B False

✓ If asked by the police you must produce your driving licence and insurance certificate.

445 **Which of these statements is correct?**

A If asked by the police you must produce your tax disc.

B If asked by the police you must produce your driving licence and insurance certificate.

C If asked by the police you must produce your service history.

D If asked by the police you must produce your passport only.

✓ If asked by the police you must produce your driving licence and insurance certificate.

446 **Which of these statements is correct?**

A If tired on a motorway you should stop on the hard shoulder.

B If tired on a motorway you should open the window and carry on.

C If tired on a motorway you should speed up to get home.

D If tired on a motorway you should leave at the next exit and rest.

✓ If tired on a motorway you should leave at the next exit and rest.

447 **Which of these statements is correct?**

A A head restraint is there to help you reverse.

B A head restraint is there to reduce neck injuries in a collision.

C A head restraint is there to make driving comfortable.

D A head restraint is there to support your back.

✓ A head restraint is there to reduce neck injuries in a collision.

448 **At a level crossing the amber light and alarm start. What should you do?**

A stop, unless you are too close to stop safely

B reverse

C speed up to cross

D zigzag through the barriers

✓ When the amber light and alarm start at a level crossing you should stop, unless you are too close to stop safely.

449 **Which of these statements is correct?**

A When the amber light and alarm start at a level crossing you should zigzag through the barriers.

B When the amber light and alarm start at a level crossing you should reverse.

C When the amber light and alarm start at a level crossing you should stop, unless you are too close to stop safely.

D When the amber light and alarm start at a level crossing you should speed up to cross.

✓ When the amber light and alarm start at a level crossing you should stop, unless you are too close to stop safely.

450 **Your car breaks down on a level crossing. What should you do first?**

A phone a garage

B stay in the car

C try to restart the engine

D get everyone out and clear of the crossing

✓ If you break down on a level crossing, first get everyone out and clear of the crossing.

451 **True or false: If you break down on a level crossing, first try to restart the engine.**

A True

B False

✓ If you break down on a level crossing, first get everyone out and clear of the crossing.

452 **Which of these statements is correct?**

A If you break down on a level crossing, first get everyone out and clear of the crossing.

B If you break down on a level crossing, first stay in the car.

C If you break down on a level crossing, first phone a garage.

D If you break down on a level crossing, first try to restart the engine.

✓ If you break down on a level crossing, first get everyone out and clear of the crossing.

453 **Which of these statements is correct?**

A Studs between the motorway and slip roads are green.

B Studs between the motorway and slip roads are amber.

C Studs between the motorway and slip roads are white.

D Studs between the motorway and slip roads are red.

✓ Studs between the motorway and slip roads are green.

454 **Which of these statements is correct?**

A Studs on the left edge of a motorway are red.

B Studs on the left edge of a motorway are amber.

C Studs on the left edge of a motorway are white.

D Studs on the left edge of a motorway are green.

✓ Studs on the left edge of a motorway are red.

455 **Which of these statements is correct?**

A Studs next to the central reservation are blue.

B Studs next to the central reservation are green.

C Studs next to the central reservation are amber.

D Studs next to the central reservation are red.

✓ Studs next to the central reservation are amber.

456 **Which of these statements is correct?**

A Buses are not allowed on a motorway.

B Cars towing caravans are not allowed on a motorway.

C Motorcycles under 50 cc are not allowed on a motorway.

D Large lorries are not allowed on a motorway.

✓ Motorcycles under 50 cc are not allowed on a motorway.

457 **Which of these statements is correct?**

A A speed in a red ring on a smart motorway is advisory only.

B A speed in a red ring on a smart motorway is a minimum speed.

C A speed in a red ring on a smart motorway is mandatory.

D A speed in a red ring on a smart motorway is for lorries only.

✓ A speed in a red ring on a smart motorway is mandatory.

458 **If you break down on a motorway with no hard shoulder, what should you do if you cannot reach an emergency area?**

A push the car

B switch on hazard lights, stay belted in and call 999

C walk along the lane to get help

D stand behind the car

✓ With no hard shoulder and no emergency area you should switch on hazard lights, stay belted in and call 999.

459 **True or false: With no hard shoulder and no emergency area you should walk along the lane to get help.**

A True

B False

✓ With no hard shoulder and no emergency area you should switch on hazard lights, stay belted in and call 999.

460 **Which of these statements is correct?**

A With no hard shoulder and no emergency area you should push the car.

B With no hard shoulder and no emergency area you should switch on hazard lights, stay belted in and call 999.

C With no hard shoulder and no emergency area you should walk along the lane to get help.

D With no hard shoulder and no emergency area you should stand behind the car.

✓ With no hard shoulder and no emergency area you should switch on hazard lights, stay belted in and call 999.

461 **Which of these statements is correct?**

A A developing hazard is a road sign.

B A developing hazard is something that makes you change speed or direction.

C A developing hazard is any pedestrian on the pavement.

D A developing hazard is any parked car.

✓ A developing hazard is something that makes you change speed or direction.

462 **Which of these statements is correct?**

A When a ball rolls into the road you should expect a parked car to move.

B When a ball rolls into the road you should expect nothing — it is harmless.

C When a ball rolls into the road you should expect a dog only.

D When a ball rolls into the road you should expect a child to run out after it.

✓ When a ball rolls into the road you should expect a child to run out after it.

463 **Which of these statements is correct?**

A Near a stopped bus you should expect nothing.

B Near a stopped bus you should expect cyclists to stop.

C Near a stopped bus you should expect the bus to reverse.

D Near a stopped bus you should expect pedestrians stepping out from in front of it.

✓ Near a stopped bus you should expect pedestrians stepping out from in front of it.

464 **Why should you be cautious of a parked car with its reversing lights on?**

A it is parked legally

B it is broken down

C it may be about to move backwards

D the driver is waiting for you

✓ Reversing lights on a parked car mean it may be about to move backwards.

465 **True or false: Reversing lights on a parked car mean it is broken down.**

A True

B False

✓ Reversing lights on a parked car mean it may be about to move backwards.

466 **Which of these statements is correct?**

A Reversing lights on a parked car mean it may be about to move backwards.

B Reversing lights on a parked car mean it is parked legally.

C Reversing lights on a parked car mean it is broken down.

D Reversing lights on a parked car mean the driver is waiting for you.

✓ Reversing lights on a parked car mean it may be about to move backwards.

467 **Which of these statements is correct?**

A You should remove an injured motorcyclist's helmet always.

B You should remove an injured motorcyclist's helmet to check their identity.

C You should remove an injured motorcyclist's helmet to give them air.

D You should remove an injured motorcyclist's helmet only if essential, e.g. they are not breathing.

✓ You should remove an injured motorcyclist's helmet only if essential, e.g. they are not breathing.

468 **Which of these statements is correct?**

A Chest compressions for an adult should be 1–2 cm deep.

B Chest compressions for an adult should be 2–3 cm deep.

C Chest compressions for an adult should be 10 cm deep.

D Chest compressions for an adult should be 5–6 cm deep.

✓ Chest compressions for an adult should be 5–6 cm deep.

469 **Which of these statements is correct?**

A Chest compressions should be given at 30 per minute.

B Chest compressions should be given at 200 per minute.

C Chest compressions should be given at 60 per minute.

D Chest compressions should be given at 100–120 per minute.

✓ Chest compressions should be given at 100–120 per minute.

470 **How should you treat a burn at the scene of an incident?**

A cooling it with cool water for at least 10 minutes

B applying butter or cream

C bursting blisters

D covering with cotton wool

✓ Treat a burn by cooling it with cool water for at least 10 minutes.

471 **True or false: Treat a burn by applying butter or cream.**

A True

B False

✓ Treat a burn by cooling it with cool water for at least 10 minutes.

472 **Which of these statements is correct?**

A Treat a burn by applying butter or cream.

B Treat a burn by covering with cotton wool.

C Treat a burn by cooling it with cool water for at least 10 minutes.

D Treat a burn by bursting blisters.

✓ Treat a burn by cooling it with cool water for at least 10 minutes.

473 **Which of these statements is correct?**

A Give motorcyclists extra room because they are always fast.

B Give motorcyclists extra room because they cannot brake.

C Give motorcyclists extra room because they have priority.

D Give motorcyclists extra room because they are harder to see and may swerve.

✓ Give motorcyclists extra room because they are harder to see and may swerve.

474 **Which of these statements is correct?**

A When a learner stalls ahead you should sound your horn.

B When a learner stalls ahead you should flash your lights.

C When a learner stalls ahead you should overtake immediately.

D When a learner stalls ahead you should be patient and wait.

✓ When a learner stalls ahead you should be patient and wait.

475 **Which of these statements is correct?**

A When a school crossing patrol shows STOP you must drive past carefully.

B When a school crossing patrol shows STOP you must slow down only.

C When a school crossing patrol shows STOP you must stop.

D When a school crossing patrol shows STOP you must sound your horn.

✓ When a school crossing patrol shows STOP you must stop.

476 **Which road users are most at risk from the "dooring" hazard?**

A motorway users
B bus passengers
C lorry drivers
D cyclists

✓ The road users most at risk from car doors opening are cyclists.

477 **True or false: The road users most at risk from car doors opening are lorry drivers.**

A True
B False

✓ The road users most at risk from car doors opening are cyclists.

478 **Which of these statements is correct?**

A The road users most at risk from car doors opening are motorway users.
B The road users most at risk from car doors opening are bus passengers.
C The road users most at risk from car doors opening are lorry drivers.
D The road users most at risk from car doors opening are cyclists.

✓ The road users most at risk from car doors opening are cyclists.

479 **Which of these statements is correct?**

A Eco-safe driving achieves more tyre wear.
B Eco-safe driving achieves faster journeys.
C Eco-safe driving achieves lower fuel use and fewer emissions.
D Eco-safe driving achieves higher insurance.

✓ Eco-safe driving achieves lower fuel use and fewer emissions.

480 **Why are vehicle catalytic converters fitted?**

A save oil
B reduce tyre wear
C increase engine power
D reduce harmful exhaust gases

✓ Catalytic converters are fitted to reduce harmful exhaust gases.

481 **True or false: Catalytic converters are fitted to increase engine power.**

A True
B False

✓ Catalytic converters are fitted to reduce harmful exhaust gases.

482 **Which of these statements is correct?**

A Catalytic converters are fitted to reduce harmful exhaust gases.
B Catalytic converters are fitted to reduce tyre wear.
C Catalytic converters are fitted to save oil.
D Catalytic converters are fitted to increase engine power.

✓ Catalytic converters are fitted to reduce harmful exhaust gases.

483 **Your overall stopping distance is made up of which two parts?**

A gap + thinking time
B speed + reaction time
C thinking distance + braking distance
D braking + tyre grip

✓ Overall stopping distance = thinking distance + braking distance.

484 True or false: Overall stopping distance = speed + reaction time.

A True

B False

✓ Overall stopping distance = thinking distance + braking distance.

485 Which of these statements is correct?

A Overall stopping distance = gap + thinking time.

B Overall stopping distance = speed + reaction time.

C Overall stopping distance = thinking distance + braking distance.

D Overall stopping distance = braking + tyre grip.

✓ Overall stopping distance = thinking distance + braking distance.

486 What do white "keep clear" markings on the road mean?

A do not block that area

B school bus only

C give way to the right

D parking for residents

✓ KEEP CLEAR markings mean do not block that area.

487 True or false: KEEP CLEAR markings mean parking for residents.

A True

B False

✓ KEEP CLEAR markings mean do not block that area.

488 Which of these statements is correct?

A KEEP CLEAR markings mean do not block that area.

B KEEP CLEAR markings mean give way to the right.

C KEEP CLEAR markings mean parking for residents.

D KEEP CLEAR markings mean school bus only.

✓ KEEP CLEAR markings mean do not block that area.

489 When a traffic light shows red and amber together, what does it mean?

A go if clear

B the lights are faulty

C prepare to stop

D stop — do not go until green

✓ Red and amber together means stop — do not go until green.

490 True or false: Red and amber together means go if clear.

A True

B False

✓ Red and amber together means stop — do not go until green.

491 Which of these statements is correct?

A Red and amber together means prepare to stop.

B Red and amber together means go if clear.

C Red and amber together means the lights are faulty.

D Red and amber together means stop — do not go until green.

✓ Red and amber together means stop — do not go until green.

492 **Where should you never overtake?**

A on a clear straight road

B approaching a pedestrian crossing

C on a dual carriageway

D in the right lane of a motorway

✓ You should never overtake approaching a pedestrian crossing.

493 **True or false: You should never overtake on a clear straight road.**

A True

B False

✓ You should never overtake approaching a pedestrian crossing.

494 **Which of these statements is correct?**

A You should never overtake approaching a pedestrian crossing.

B You should never overtake on a clear straight road.

C You should never overtake on a dual carriageway.

D You should never overtake in the right lane of a motorway.

✓ You should never overtake approaching a pedestrian crossing.

495 **When driving in fog, why should you not follow the tail lights of the vehicle in front closely?**

A it uses more fuel

B it is illegal

C it gives a false sense of security

D it dazzles the driver

✓ Following tail lights closely in fog is dangerous because it gives a false sense of security.

496 **True or false: Following tail lights closely in fog is dangerous because it uses more fuel.**

A True

B False

✓ Following tail lights closely in fog is dangerous because it gives a false sense of security.

497 **Which of these statements is correct?**

A Following tail lights closely in fog is dangerous because it dazzles the driver.

B Following tail lights closely in fog is dangerous because it uses more fuel.

C Following tail lights closely in fog is dangerous because it gives a false sense of security.

D Following tail lights closely in fog is dangerous because it is illegal.

✓ Following tail lights closely in fog is dangerous because it gives a false sense of security.

498 **What should you do before you open your car door at the roadside (the "Dutch reach")?**

A hand furthest from the door

B foot

C horn

D nearest hand

✓ Before opening your door use your hand furthest from the door to look behind.

499 **True or false: Before opening your door use your nearest hand to look behind.**

A True

B False

✓ Before opening your door use your hand furthest from the door to look behind.

500 **Which of these statements is correct?**

A Before opening your door use your hand furthest from the door to look behind.

B Before opening your door use your nearest hand to look behind.

C Before opening your door use your foot to look behind.

D Before opening your door use your horn to look behind.

✓ Before opening your door use your hand furthest from the door to look behind.

MOCK TEST

50 questions · 57 minutes · pass 43

Cover the highlighted answers, take the test, then mark yourself.

1 **Who is responsible for seat belt use by a passenger under 14?**

A Nobody
B The driver
C The parent only
D The child

√ The driver is responsible.

2 **An ambulance with flashing blue lights is behind you. You should...**

A Jump the red light
B Speed up
C Pull over safely and let it pass
D Brake hard in the lane

√ Pull over somewhere safe and legal to let it pass.

3 **On slippery roads, pulling away is easier in...**

A First gear with high revs
B Reverse
C Second gear
D Neutral

√ Second gear reduces wheelspin.

4 **You are turning into a side road. Pedestrians are waiting to cross it. You should...**

A Give way to them
B Sound your horn
C Flash your lights
D Drive through quickly

√ Give way to pedestrians.

5 **True or false: The legal alcohol limit in Scotland is lower than in England.**

A True
B False

√ True: 50 mg in Scotland vs 80 mg in England per 100 ml of blood.

6 **What is the maximum score for each hazard?**

A 1
B 3
C 10
D 5

√ 5 points.

7 **Why must you take extra care at junctions with motorcyclists?**

A They are noisy
B They are slow
C They never signal
D They are harder to see

√ They are harder to see.

8 **A red X above your lane on a motorway means...**

A Bus lane
B Free lane
C Lane is closed - do not continue
D Slow down

√ The lane is closed — do not continue in it.

9 **You are dazzled by bright headlights at night. You should...**

A Slow down and stop if needed
B Speed up
C Close your eyes
D Flash back

√ Slow down and stop if needed.

10 **On a narrow road with a parked car on your side, you should...**

A Force through
B Flash lights
C Reverse fast
D Give way to oncoming traffic

√ Give way to oncoming traffic.

11 **In heavy rain you should use...**

A Fog lights only
B No lights
C Dipped headlights
D Full beam

√ Dipped headlights.

12 **What does MSM stand for?**

A Mirror, Speed, Move
B Mirrors, Seat, Mirrors
C Move, Stop, Move
D Mirror, Signal, Manoeuvre

√ Mirror, Signal, Manoeuvre.

13 **When should you check tyre pressures?**

A Only before MOT
B When tyres are cold
C After motorway driving
D When tyres are hot

√ When the tyres are cold.

14 **What is the safest advice about drinking and driving?**

A Eat before

B Do not drink any alcohol

C Drink and wait one hour

D Drink only one

✓ Don't drink any alcohol if you are going to drive.

15 **What does the inverted triangle 'Give Way' sign mean?**

A Road works

B Let other traffic go first

C Stop always

D No entry

✓ Give way.

16 **What do zigzag lines at a zebra crossing mean?**

A Parking allowed

B Cycle lane

C No parking and no overtaking

D Slow down only

✓ No parking and no overtaking in the zigzag area.

17 **On icy roads, stopping distances can increase by up to...**

A Four times

B Six times

C Two times

D Ten times

✓ They can increase up to ten times.

18 **Children must use a child car seat until they are 12 years old or...**

A 120 cm tall

B 135 cm tall

C 140 cm tall

D 150 cm tall

✓ 135 cm, whichever comes first.

19 **If you click continuously during a clip, you will...**

A Be disqualified

B Score highly

C Get a bonus

D Score zero for that clip

✓ You score zero for that clip.

20 **Learner drivers may use motorways...**

A Never

B Only at night

C Alone

D With an approved instructor in a dual-control car

✓ Only with an approved instructor in a dual-control car.

21 **What is the typical overall stopping distance at 40 mph?**

A 23 metres

B 36 metres

C 73 metres

D 53 metres

✓ 36 metres.

22 **What shape are warning signs?**

A Circle

B Octagon

C Triangle

D Square

✓ A triangle with a red border.

23 **You must not park within how many metres of a junction?**

A 5 metres

B 15 metres

C 10 metres

D 20 metres

✓ 10 metres.

24 **On wet roads, the gap you should leave from the vehicle in front is at least...**

A One second

B Two seconds

C Four seconds

D Three seconds

✓ At least double the normal gap (four seconds).

25 **When leaving a roundabout you should signal...**

A Right

B No signal

C Left

D Hazard lights

✓ Signal left as you leave.

26 **You are in an accident causing damage. What must you do?**

A Wait one week

B Stop and exchange details

C Call a friend

D Drive on

✓ Stop and exchange details.

27 **Mark TWO answers. When should you NOT overtake?**

A On a dual carriageway

B Approaching a bend

C Near the brow of a hill

D On a wide straight road with a clear view

✓ Near a bend and near the brow of a hill, because you can't see far enough.

28 **A car needs its first MOT test when it is...**

A 5 years old
B 3 years old
C 7 years old
D 1 year old

✓ After three years.

29 **What is the pass mark for hazard perception?**

A 43 out of 50
B 44 out of 75
C 50 out of 75
D 33 out of 50

✓ 44 out of 75.

30 **At a pelican crossing, the amber light is flashing. You should...**

A Give way to pedestrians on the crossing and go if clear
B Speed up
C Sound your horn
D Stop and wait

✓ Give way to pedestrians on the crossing, then go if clear.

31 **What does a red circular sign with a white bar mean?**

A Give way
B No entry
C Stop
D Roundabout

✓ No entry.

32 **What is the maximum speed for a car on a motorway?**

A 70 mph
B 80 mph
C 50 mph
D 60 mph

✓ 70 mph unless signs show otherwise.

33 **At a roundabout, you should give way to traffic approaching from...**

A Your left
B Your right
C Behind
D Ahead

✓ Traffic approaching from the right.

34 **When may you wait in a yellow box junction?**

A When queuing behind another vehicle
B When traffic lights are green
C Never
D When turning right and only oncoming traffic stops you

✓ When turning right and only oncoming traffic stops you.

35 When joining a motorway from a slip road, you should...

A Stop at the end
B Cut in
C Use hard shoulder
D Match speed and give way to traffic

✓ Match your speed and give way to traffic.

36 What is the typical overall stopping distance at 30 mph?

A 53 metres
B 36 metres
C 12 metres
D 23 metres

✓ 23 metres (9 m thinking + 14 m braking).

37 What is the typical overall stopping distance at 70 mph?

A 96 metres
B 53 metres
C 73 metres
D 120 metres

✓ 96 metres (21 m thinking + 75 m braking).

38 In fog, when should you use fog lights?

A Never
B When visibility is seriously reduced, usually below 100 m
C Always
D Only at night

✓ When visibility is seriously reduced (under 100 m); switch them off when it improves.

39 What is the national speed limit for cars on a single carriageway?

A 70 mph
B 50 mph
C 30 mph
D 60 mph

✓ The limit is 60 mph for cars on a single carriageway.

40 True or false: You can use the hard shoulder for a rest.

A True
B False

✓ False: emergencies only.

41 What do double yellow lines at the edge of the road mean?

A Loading only
B No stopping at all
C No waiting at any time unless signs show otherwise
D Waiting allowed at night

✓ No waiting at any time unless signs show otherwise.

42 The octagonal STOP sign means you must...

A Beep
B Flash
C Stop and give way
D Slow down only

✓ Stop completely and give way.

43 **At a level crossing the amber light comes on. You should...**

- **A Stop unless too close to stop safely**
- B Cross
- C Speed up
- D Reverse

✓ Stop unless you are too close to stop safely.

44 **At an accident, what should you do first?**

- A Move casualties
- B Remove helmet
- C Leave
- **D Warn others and switch off engines**

✓ Warn other traffic and switch off engines.

45 **If you pass your test and get 6 penalty points within 2 years, you will...**

- A Retake theory only
- B Pay extra
- **C Lose your licence**
- D Nothing

✓ Your licence is revoked and you must retake your tests.

46 **How often should you take a break on a long journey?**

- A Every 4 hours
- **B At least every 2 hours**
- C Never
- D Every 6 hours

✓ At least every two hours.

47 **What is the speed limit in a built-up area with street lights, unless signs say otherwise?**

- **A 30 mph**
- B 20 mph
- C 50 mph
- D 40 mph

✓ The default limit is 30 mph in areas with street lights.

48 **Before a long motorway journey, you should check...**

- A Seat
- B Radio
- C Mats
- **D Fuel, oil, water and tyres**

✓ Fuel, oil, water and tyres.

49 **If you break down on a motorway, you should...**

- A Fix it on the lane
- B Cross lanes
- **C Get out by the left-hand door and wait behind the barrier**
- D Stay in the car

✓ Leave by the left-hand door and wait behind the barrier.

50 **If your car starts to aquaplane, you should...**

A Ease off the accelerator

B Speed up

C Brake hard

D Steer sharply

✓ Ease off the accelerator gently.

REFERENCE

Glossary

Key English words in the test

accident	حادث
advice	نصيحة
alcohol	كحول
amber	كهرماني
ambulance	إسعاف
aquaplaning	انزلاق مائي
at least	على الأقل
barrier	حاجز
bend	منعطف
box junction	تقاطع الصندوق
brake	فرامل
braking	فرملة
braking distance	مسافة الفرملة
break	استراحة
breakdown	عطل
brow	قمة
built-up area	منطقة سكنية
carriageway	الطريق/المسار
casualties	مصابون
child seat	مقعد طفل
children	أطفال
closed	مغلق
cold	بارد
continuously	باستمرار
cross	يعبر
cyclist	راكب دراجة
dazzled	مبهور
developing hazard	خطر متطور
dipped headlights	أضواء قريبة
ease off	ارفع تدريجيًا
exchange details	تبادل بيانات
flashing	يومض
fog	ضباب
fuel	وقود
gap	مسافة
give way	أعِط الأولوية
hand-held	باليد
hard shoulder	الكتف الصلب
headlights	أضواء أمامية
horn	بوري
icy	متجمد
illegal	غير قانوني
increase	تزيد
instructor	مدرب
insurance	تأمين
journey	رحلة
junction	تقاطع
lane	مسار
learner	متعلم
leave	اترك
level crossing	تقاطع سكة حديد
licence	رخصة
limit	حد
lower	أقل

mandatory	إلزامي
manoeuvre	مناورة
maximum	أقصى
medicine	دواء
metres	أمتار
MOT	فحص صلاحية المركبة
motorcyclist	سائق دراجة نارية
motorway	طريق سريع
narrow	ضيق
national speed limit	الحد الوطني
no entry	ممنوع الدخول
octagonal	ثماني
oil	زيت
oncoming	قادم
overall	إجمالي
overtake	تجاوز
overtaking	تجاوز
park	يركن
parked	واقف
pass mark	درجة النجاح
pedestrians	مشاة
pelican crossing	معبر مشاة بإشارة
penalty points	نقاط مخالفة
pharmacist	صيدلي
pressure	ضغط
pull away	انطلق
pull over	توقف جانبًا
react	يتفاعل
responsible	مسؤول
rest	راحة
restrictions	قيود
roundabout	دوار
rule	قاعدة
school	مدرسة
seat belt	حزام
signal	إشارة
single	مفرد
slip road	طريق دخول
slippery	زلق
spongy	إسفنجي
stopping	توقف
street lights	أعمدة إنارة
tall	الطول
thinking distance	مسافة التفكير
third party	طرف ثلاث
tread	نقش الإطار
triangle	مثلث
tyre	إطار
unless	إلا إذا
van	عربة
visibility	الرؤية
waiting	انتظار/وقوف
warning	تحذير
warning light	ضوء تحذير
wet	مبلل
zebra crossing	معبر المشاة
